

RESPONSES ARE RECEIVED FROM AIR CAMPAIGN

Perhaps the first response received here to post cards mailed in Santa Ana on April 16, in celebration of the first anniversary of the institution of air mail service between Los Angeles and the east, was the receipt today by E. E. Vincent, of the Reliance Title company, of a copy of The Times, published at Clay Center, Kansas, on April 21.

Clay Center formerly was the home of Vincent and he sent L. F. Valentine, editor and publisher, one of the souvenir post cards provided for mailing on the date named.

The editor acknowledged receipt of the cards in a published story, as follows:

"The Times received one of its first 'air mail' letters Tuesday morning, from Em Vincent at Santa Ana, Calif. It was really not a letter, but a souvenir postcard folder, advertising Santa Ana and Southern California. It was mailed in Santa Ana on April 16th, contained a ten-cent stamp arrived in Clay Center Tuesday morning, presumably having come across in two days to some station, where it was changed to a mail train and on to this city. On the card was printed, 'Mail by April 16 for first anniversary flight,' so it was an anniversary flight card, as well as a souvenir postcard. Em had written upon it, 'Santa Ana, Calif., April 16, 1927. Friend L. F.—Come out to California. Where the Spring comes in the Summer, the Summer comes in the Fall, the Fall comes in the Winter time and the Winters don't come at all. Sincerely, E. E. Vincent.' But we don't believe Em made that rhyme up."

Foundation for Medicine Study Is Established

NEW YORK, April 25.—Expenditure of millions of dollars in establishment of a philanthropic institution designed to surpass in scope the Rockefeller and Carnegie foundations are outlined by John Markle, wealthy retired coal operator, in the New York American.

Almost every form of scientific and medical research work, educational activity and welfare enterprise will share in the John and Mary R. Markle foundation, to be started with a contemplated initial fund of \$3,000,000, says the American.

Purposes of the foundation include: Creation and maintenance of medical research centers, hospitals, charitable institutions and educational agencies; study of disease and development of methods of eradication; support to libraries and assistance to destitute individuals.

Establishment of the foundation is another step in the philosophy of the founder that every dollar earned in excess of living costs becomes a trust for fellow men.

Girl Reserves Meet at Beach

Conferences on the problems facing modern girlhood and on modern education took up much of the time at the three-day Girl Reserve secretary conference held over the week end at Balboa Beach.

The various discussions were led by Miss Gertrude Gogin, a former national executive of the Girl Reserve movement. Miss Gogin is now touring the west holding conferences in each district regarding the progress being made by Girl Reserve secretaries.

Secretaries from organizations throughout Southern California were present at the meeting. Orange county was represented by Miss Helen McPeak of Santa Ana and Miss Florence Moreland of Orange.

Police News

Police were called to 725 South Garnsey street, at 7:40 o'clock Saturday night, when prowlers were seen in the neighborhood. No arrests were made.

Two automobiles were reported stolen here Saturday night, neither of which have as yet been recovered. W. R. Gordon, 1202 Orange avenue, reported the theft of a car from near Seventeenth and Bristol streets and Leo Richardson, 113 North Emily street, Anaheim, reported the theft of his machine from near Fifth and Broadway.

AUTO PARTS MEN ON COUNTY TRIP

Members of the California Auto Parts Jobbers' association, with about 60 in the party, visited Orange county supply houses in their annual tour of inspection yesterday. The trip is held by the automobile supply men for the purpose of exchanging ideas in conducting sales and stock arrangement.

During the tour of Orange county, a scout car driven by Harry Harlow and H. M. Miller, conducted the visitors along the route.

The auto jobbers left Los Angeles in the morning, visiting in Whittier and then coming to Orange county. After making the circuit of northern Orange county, the party went to Orange county park, where barbecued steak was served.

Each year some section of the Southland is toured by the auto jobbers. Ventura county was visited last year.

On yesterday's trip, the stores inspected were the Walter Anderson company on Whittier boulevard, the H. M. Miller company of Whittier and Anaheim, Harlow and Phillips auto supply house of Fullerton, the Orange County Ignition works and Hockaday and Harlow of Santa Ana.

DANCE TEACHERS DENOUNCE DERBY

At a meeting of the California Association of Dancing Teachers, held last night in Los Angeles at the studio of Alicia Ryan, Post building, Wilshire boulevard, the recent Marathon dancing contest held in Los Angeles, was denounced in formal resolutions, according to Miss Mabel Rockwell, of the Mabel Rockwell studio, of this city.

There was a spirited discussion regarding the Marathon, according to the local dancing teacher, and members were united in denouncing it and criticizing the business ethics of those who promoted it. They also upheld the Los Angeles Health board in its action, sending the resolution to the Los Angeles city council and to the newspapers of the state.

"Dancing is the greatest indoor recreation and social accomplishment there is, but should not be confused with outdoor sports in such a manner," declared Miss Rockwell today. At the close of last night's discussion, the Santa Ana teacher exemplified her latest dance creation, the "doll dance," a half-time step that bids fair to become quite popular.

GENERAL ROAD CONDITIONS

By Touring Department of National Automobile Club

While the bridge spanning the San Dieguito river immediately north of Del Mar has not been fully repaired, it is entirely safe for automobile use at this time. About 150 feet of the bridge was swept away by high waters during the heavy rains of last February.

The road from Tia Juana to Ensenada is in good condition as far as Rosarita Beach, but not advisable south of that point. Numerous rough, cross washed sections will be encountered on the remaining 56 miles to Ensenada. However, the road is scheduled to be put in

CAPITAL GOSSIP ABOUT SHAKUP STILL PERSISTS

WASHINGTON, April 25.—The White House has laid one political ghost with a denial that there is any split in the cabinet, but the vigor of the official spokesman in announcing the denial may raise another.

The laid ghost is the rumor that Secretary Kellogg was going to retire from office and that the cabinet was split over the administration's policy in China.

In making his announcement the spokesman added that even were Mr. Kellogg to retire, Secretary Hoover, whose name had been linked with the state department post in capital gossip, would not be appointed to the place. Although it was added at the White House that Mr. Hoover was a warm supporter of the administration's Chinese policies, those who do so on conjecture and speculation seized immediately on this bit of information as something offering great possibilities for flights of political fancy.

Mr. Hoover's name has persistently been thrust forward by amateur and unofficial cabinet makers for the position of secretary of state, should Mr. Kellogg retire. Several times in the last few weeks President Coolidge has found it necessary to deny that Mr. Kellogg had any such intention. Nevertheless, rumor and speculation have continued, especially since the Chinese situation developed serious aspects, and one of the bases for pushing Mr. Hoover's name forward rests on the fact that he has had long experience among the Chinese, having resided in that country when he was a consulting engineer.

Those close to Mr. Hoover have denied repeatedly that he had any differences with his cabinet colleagues over the Chinese policies, but these denials have not sufficed to stay the gossip, and the president apparently has been nettled that it keeps going. The latest flood of rumor was let loose several days ago by hints dropped by officials who claimed to be on the "inside" politically. The hints quickly grew to such proportions that the president determined that something ought to be said officially.

The spoken thought of the White House spokesman in saying who would not be appointed to a certain post, however, was something new and has resulted in the political guessers dropping one line of conjecture and picking up another.

The necessity of denying cabinet shakeups is part of the presidential job. Washington is always full of rumors and cabinets are made and unmade over night by the political soothsayers. Sometimes they guess right, sometimes partly right and sometimes all wrong, but the guessing process goes along.

Recent reports have had Secretary Mellon, Secretary Wilbur, Secretary Hoover, Secretary Kellogg and others ready to step out and their successors selected. May be one or all of these will some day leave, but there is no authoritative indication as to which or when.

good condition at an early date. Motorists who desire to see the yuccas and cacti at their best would enjoy a trip to Morongo Valley and Warren's Well at this time. The route lies over the Valley boulevard, through Riverside, Beaumont, Banning, then to a point three miles beyond the White river bridge where a left turn is made. From this point twenty miles of desert road in fair condition is followed.

The road from Bishop to June, Gull, Silver and Grant lakes is now open via the McPherson grade. From Mono lake to Bridgeport is open via the county road and in fair condition.

Water Relief Measures Now Up to State Senate

UPPER HOUSE MUST SETTLE ALL DISPUTES

Crittenden Constitutional Amendment Is Reported 'Do Pass' by Committee

Measure Providing Permanent Probe Commission Is Ready for Final Passage

BY THE appointment of former Senator M. B. Harris of Fresno to the Highways Commission, in addition to Ralph Bull of Eureka and J. P. Baumgartner of Santa Ana, Governor Young has completed the commission as now constituted. Under a proposed change in the law, two more members of the same sort will be appointed, making a board of five. There were many applicants for appointment to this commission, but it is not noted that any of them were disappointed when the choice fell on three men who had not applied at all. For, meantime, a change had been made which caused a sudden loss of interest on the part of the applicants. The salaries of the commissioners were abolished. They are to work for nothing. And, as it happens, men of much higher standing were secured than could ordinarily have been induced to serve. Men of the finest quality count it a privilege to render unpaid public service. The money saved on salaries will go to employ expert superintendence.

A SIMILAR change is proposed in the state board of education. The present board is paid. The new board will work for nothing. And, unquestionably, it will be a much better board. It will at least not try to earn its "nose" by passing on other matters that ought to be attended to by the superintendent and the professional staff. The things it does will be valuable. The things it refrains from doing may be even more valuable. Senator Harris, by the way, the very excellent third appointee to the highway commission, was once a member of the state board of education. He resigned because, as a man of large affairs, he could not afford the time to serve on a paid board. Now, doubtless, still at a sacrifice, but not at an intolerable one, he accepts appointment on an unpaid board.

THERE are two ways to get efficient public servants. One way is to pay them exceedingly well. The other is not to pay them at all. Doubtless each way is best, in its place. Better service is secured on policy-making boards by not paying them. Better service is secured in expert and professional assistants and executives by paying them as well as private business does—which is very well indeed. So pay the professional well. Pay the public representative little or nothing.

CHICAGO'S bootleg bandits may not have read the history of the Middle Ages, but being medieval persons, they instinctively do the same things as their predecessors. So it is not surprising that they have begun kidnapping each other for ransom. The medieval robber baron liked nothing better than to capture the son of the chief of the next castle, and hold him for all that he could intimidate the father into extorting from his peasants. The Chicago bandits demand larger ransoms, and have better weapons to enforce them, and they have to secure their freedom of action by corrupting the government of an otherwise civilized city. These seem to be about the only differences.

England's Labor Leader Is Better

PHILADELPHIA, April 25.—Ramsay MacDonald, leader of the British labor party and former premier of England, "spent a comfortable night and was much improved," it was said at the Jefferson hospital, where he is confined with a sore throat and cold today.

APPEAL IS DISMISSED
WASHINGTON, April 25.—Appeal of George B. De Munnich, Ind., editor, from a jail sentence imposed for criminal contempt of court because of an editorial he wrote, was dismissed by the U. S. supreme court today.

McCormick Wedded To Secretary

(By United Press)
CHICAGO, April 25.—Cyrus H. McCormick, 67-year-old chairman of the International Harvester company board of directors, is somewhere on the Atlantic, bound for a honeymoon in Europe, friends learned today.

His bride, the second Mrs. McCormick, was Miss Alice M. Holt, secretary to the Harvester company head for many years. She is 20 years his junior.

The couple were married Friday at the Dublin, N. H., country home of the bride's niece, Mrs. Eric Weld, according to the announcement here. The wedding was kept secret until Mr. and Mrs. McCormick had sailed.

KELLY PLEADS NOT GUILTY TO 'FIST' MURDER

Seek Indictment of Dorothy Mackaye in Connection With Slaying

(By United Press)
LOS ANGELES, April 25.—Paul Kelly, handsome giant of the screen, appeared before Superior Judge Walter Burnell here today and pleaded not guilty to the "bare knuckle murder" of Ray Raymond, "song and dance man." Trial was set for May 9.

Meanwhile, in another courtroom, Chief Deputy District Attorney Harold Davis prepared to ask the county grand jury to indict beautiful Dorothy Mackaye as a felon in connection with the fatal beating administered by her husband by her asserted sweetheart.

"Miss Mackaye is as responsible as Dr. Walter Sullivan in this affair," Davis said, referring to the Hollywood doctor, who attended Raymond during his death-coma. "I am confident that the grand jury will indict both for aiding and abetting Kelly in the effort to cover up the crime."

Four witnesses, including Frank Loomis, the dead actor's manager; Dr. Frank Wagner, autopsy surgeon; Deputy Coroner Frank Schoeffel and Helen Wilkinson, Miss Mackaye's chum, are to be brought before the grand jury.

Loomis will be questioned concerning the payment of \$500 to Dr. Sullivan and \$300 to a hospital immediately after Raymond's death.

The other witnesses will be asked to repeat testimony made before a coroner's jury in an effort to prove that an attempt had been made to "cover up" the manner in which Raymond came to his death.

Man's Kidnapers Sought by Police

FRESNO, April 25.—The co-operation of San Joaquin valley police department was asked by local police, who are trying to find two kidnapers of James E. Rawlings, manager of a local drugstore.

Rawlings reported his abduction to the local police, declaring he had escaped from the men near Visalia.

According to Rawlings' story, he was accosted on the street here by the two men. They were armed. They ordered him to drive toward Visalia. When he neared that city, he was ordered to stop and one of the men got out. Rawlings managed to dump the other man from the automobile and escaped while the men emptied their guns at him.

Pair Questioned About Shooting

BAKERSFIELD, Calif., April 25.—W. C. Allen and his wife were questioned in the county jail here today about the fatal shooting of J. H. Cox, 28, at Taft Heights, near here. Deputy sheriffs, after an investigation, which was started when Allen voluntarily appeared at the Taft police station, declared they believed the shooting was the result of attentions paid by Cox to Mrs. Allen.

BELIEVE MAN FOUND DEAD IN HOTEL ROOM MURDERED

(By United Press)
LOS ANGELES, April 25.—Mysterious circumstances surrounding the death of a man believed to be A. W. Kaufman, wealthy tourist, of Norfolk, Neb., caused an autopsy to be ordered here today while police sought the man's companion.

Kaufman, identified by papers found on his body, registered at a downtown hotel as "A. P. Thompson, St. Louis," and went to a room with another man, whose identity is unknown. Shortly after 2 o'clock this morning he was found dead by hotel employees, his companion having left the hotel a short time before.

According to police reports, based on questioning of hotel employees, Kaufman and his companion came to the hotel last night and, after the former had engaged a room, went upstairs, asking to be called at midnight.

When a bell boy went to the room he was ordered out and reported to the night clerk that the men were engaged in an argument. Both, apparently, had been drinking, he reported.

At 2 a. m., the unidentified man came downstairs and told the night clerk to call "Thompson" at 5:30 a. m. The room clerk immediately called the room and, receiving no answer, went upstairs.

Kaufman, partially dressed, was found sprawled at the foot of the bed dead. Police were notified and investigating officers found a slight discoloration about the dead man's neck, they reported.

A search of his pockets revealed papers and cards, one of which is believed to have carried his correct identity as "A. W. Kaufman, 1905 North Fourth street, Norfolk, Neb." The card asked that Mrs. H. C. Kaufman be notified in case of accident or death.

Chef Likes To Cook, But Not for Lynx

LA VERNE, Calif., April 25.—George Leonard likes to cook, but today he is trying to work out a plan whereby he won't have to take his ham and bacon stock to his private tent at night.

Leonard, chef at the government forestry camp in San Dimas canyon near here, stepped out of his commissary for a few moments yesterday and as he returned a full-grown lynx darted out of the door with a good-sized piece of "ham what am" in its jaws.

Tracks found about the camp indicate that the lynx has a half-grown mountain lion as running mate on the foraging trips.

FERRY CAPTAIN IS BLAMED FOR CRASH IN BAY

Master of Steamship Newport Says Golden City Responsible

(By United Press)
SAN FRANCISCO, April 25.—The ferryboat Golden City, which collided with the steamship Newport, endangering the lives of the 30 passengers and crew of the ferry Sunday night, went to the bottom a mile and a half outside the heads early today.

The ferry was carried to its grave by the tide and was being towed back by a tug when the water gushed in with strong force to sink the wooden hull.

The ships crashed in the bay in the dense fog which poured in from Golden Gate early Sunday evening. The sinking of the ferry, from which all passengers were saved, may be disastrous to the investigation which will be conducted by inspectors to determine the blame for the accident.

Capt. Sven Rustad, of the Newport, blames the ferry and Capt. A. W. Johnson, master of the Golden City, has refused to make any comment before he appears at the federal investigation.

On one feature all who were in the wreck agree—the helmsmen on both boats failed to see each other until it was too late to avoid a crash. The steel hull of the Newport crushed in the Golden City's wooden hull on the port side.

Instead of pulling away, Captain Rustad, of the Newport, remained in that position until the passengers had been removed. Captain Johnson, of the ferry, was the last to leave the ship.

There were four automobiles aboard the ferry and the owner of one of them avers that there was \$500 in cash in his car. The automobiles went down with the ship.

The Newport added one more episode to its "jinx ship" career. Her series of mishaps began in 1913, when she sank in the Panama canal at Balboa. In 1914 she rammed the steamship Louis Luckenbach in San Francisco bay. In 1920 she caught fire off the Central American coast. Last year she rammed another steamer in the draw span of a Willamette river bridge, in Portland.

Snyder-Gray Case Outlined to Jury

LONG ISLAND CITY, N. Y., April 25.—The case of the state of New York against Ruth Brown Snyder and Henry Judd Gray, accused of the murder of Albert Snyder, was outlined to the jury today by District Attorney Newcombe.

The blonde suburban housewife and swarthy corset salesman sat close by the prosecutor as he pictured the murders of Mrs. Snyder's husband, Albert.

Before Newcombe began his opening statement, Supreme Court Justice Townsend Scudder received opposing counsel in his chambers and discussed with them a published story that jurors might have discussed the case since their selection.

U. S. Court Denies Injunction Review

WASHINGTON, April 25.—The U. S. supreme court today denied the federal trade commission a review of the National Labor Relations board's decision which blocked the famous "bread trust" investigation and other inquiries ordered by the senate.

3 HURT IN FIGHT CLIMAX TO CHRISTENING CEREMONY

(By United Press)
WILMINGTON, Calif., April 25.—A free-for-all fight that climaxed a christening celebration here today sent one man to a hospital with a knife wound in the abdomen, brought minor injuries to two others and resulted in the arrest of a fourth on a charge of assault with a deadly weapon.

Jose Hernandez, the most seriously injured, is alleged to have taken issue to statements of Sylvario Garcia that a baseball game between San Pedro and Wilmington teams yesterday had been "fixed."

The men engaged in a battle and Hernandez, R. Abila and Juan Medina were slashed about the wrists when they attempted to stop the fight.

Garcia fled following the brawl, but later was taken into custody.

\$1100 FLOOD RELIEF QUOTA OF SANTA ANA RED CROSS

The southern half of Orange county has been given a quota of \$1100 as its share of the \$5,000,000 that the country is raising for the use of the American Red Cross in carrying relief to the Mississippi flood sufferers.

An urgent call for voluntary contributions was issued today by T. E. Stephenson, chairman of the local chapter.

Contributions in cash can be left at the Red Cross chapter at 4 o'clock tomorrow afternoon. The meeting will be held in the office of the secretary, Mrs. J. H. Leebick, in the courthouse.

"By that time," said the chapter chairman, "we will know just what steps it will be necessary for us to take in order to secure our quota. We are hopeful, of course, that volunteer contributions today and tomorrow will come in in such shape that no concentrated drive will be necessary. The need is so great and so apparent that it does not seem likely that the response here will be otherwise than prompt and generous."

Stephenson said that checks should be made out to American Red Cross or to the Red Cross. Money, as it is collected, will be sent daily to Red Cross headquarters in San Francisco so that it will be put to work immediately.

This morning, T. E. Stephenson issued a call for a meeting of the

RED CROSS OPENS DRIVE TO RAISE FLOOD RELIEF FUNDS

Death Toll In Detroit Fire At 11

(By United Press)
DETROIT, Mich., April 25.—The death toll stood at 11 today, with three reported missing and 17 in the hospital following Saturday's \$3,000,000 fire, which practically destroyed the Harper street automobile body plant of the Briggs Manufacturing company.

Seven of those in the hospital were declared by physicians to have but slight chance of living and some of the others were said to be totally blinded.

Firemen, prodding through the still smoldering ruins of the plant Sunday, found one body. The 10 other deaths occurred in hospitals.

PRESS ASSOCIATION TO HEAR COLLEGE

WASHINGTON, April 25.—A special train bearing President and Mrs. Coolidge and members of his party left Washington at noon for New York, where the president will address the 20th anniversary gathering of the United Press association at the Hotel Biltmore tonight.

The president spent most of the morning in his office at the White House, arriving early as usual. He received only one caller today, Senator Harrison, Democrat, Mississippi, who thanked him for the steps taken by the federal government for flood relief in his state and other southern Mississippi valley states.

Shortly before 11 o'clock, the president left his desk and went to his Dupont circle home, where he made final arrangements for his trip.

The White House car carrying him and Mrs. Coolidge to the station was trailed by several others bearing the party which accompanied him on the train, and flanked by the usual motorcycle policemen to open up traffic lanes.

HERBERT HOOVER TAKES COMMAND OF RELIEF FORCES

MEMPHIS, Tenn., April 25.—Herbert Hoover, secretary of commerce, arrived here at the edge of the Mississippi flood area today and immediately began the task of co-ordinating one of America's peace time relief forces.

Conferences were immediately arranged between Red Cross, state, city and government officials so that the work of feeding and housing more than 100,000 refugees could go on without interruption.

Joining Hoover in the conferences were Maj. Gen. Edgar Jadwin, chief of army engineers, and acting chairman Flesher, of the Red Cross, both of whom accompanied the secretary to Memphis.

Today will be spent in perfecting an efficient relief organization, the commerce secretary announced.

Tuesday, Hoover expects to board one of the commerce department boats docked here for an inspection tour of the Mississippi between Memphis and Vicksburg. After that the boat may ride the crest of the flood to New Orleans.

General Jadwin and newspapermen will accompany Hoover on the boat trip.

Earle Williams, Film Star, Dies

HOLLYWOOD, April 25.—Earle R. Williams, famous screen star of a score of years ago, died in his home here shortly before noon today.

Williams suffered an attack of bronchial pneumonia last Thursday, but it was believed he would recover. He suffered a sudden relapse at 11:30 a. m.

He began his career with the old Vitaphone company and for years was a matinee idol of the screen. Williams was born in Sacramento and previous to his entry in the movies toured the western states with stock companies.

KIDNAPED WOMAN THROWN OFF DOCK

SAN PEDRO, April 25.—Mrs. Anna C. Guidinger, 45, was rescued from a hospital here today from shock and exposure, while police sought two kidnapers, reported to have thrown her from a dock.

According to a report made to police, Mrs. Guidinger was seized and gagged. Later she was taken to the end of a dock and thrown into the water. James Garuth and Charles Brockelbank saw the woman and rescued her in a rowboat.

EDICT WILL BE ENFORCED BY SOLDIERS

Those Refusing to Leave To Be Removed by Force Declares General Green

RUMOR OF NEW BREAK

Grim Task of Rehabilitation and Relief Started In Torrent-Swept States

(By United Press)
MEMPHIS, Tenn., April 25.—Orders for forcible evacuation of Greenville, Leland and other flooded Mississippi towns were issued today by Gen. Curtis T. Green, commander of the Mississippi National Guard.

A fleet of more than 100 boats of all sizes was being assembled at Vicksburg to carry soldiers into the flooded areas to bring out residents remaining in the flooded regions by force if necessary.

"We cannot allow these people to die like rats from disease and privation or permit them to be trapped by the rising water," General Green said. "If they refuse to leave, we intend to force them out of the stricken territory."

A force of 600 soldiers and 49 officers of the Mississippi National Guard was mobilized at Vicksburg, awaiting orders from General Green and Governor Dennis Murphree.

Governor Murphree has established headquarters at Vicksburg to direct state forces assisting in the relief work.

More than 30,000 refugees in the towns of Greenville, Leland, Shaw, Elizabeth, Percy and Hollandale will be removed on the forcible evacuation order if they refuse to leave on their own accord, General Green said.

An unverified report that the main Mississippi levee near Yonkapin, Ark., several miles above Arkansas City, had given away, reached T. W. Keese, levee board chairman, at Helena, Ark., today.

The Memphis levee board was without word of the reported break. Breaking of the levee at Yonkapin would flood Arkansas City with several feet of water before night, river men said.

Telephone service was out between Memphis and Arkansas City today, although workmen had been sent out to repair breaks in the line.

START GRIM TASK OF REHABILITATION
MEMPHIS, Tenn., April 25.—Stunned by the devastating blow of its greatest flood disaster, the Mississippi valley today set grimly to the task of relief and rehabilitation.

Harry M. Baker, national disaster relief director for the American Red Cross, opened permanent headquarters in Memphis from which relief work in the eight states swept by the flood will be directed.

All agencies aiding in the relief work will be co-ordinated under the direction of Baker and Herbert Hoover, secretary of commerce, sent here from Washington to make a survey of the situation for the federal government.

Baker said the Mississippi flood disaster was the worst he has known in his years of work with the Red Cross. The relief machinery being set up will be adequate to furnish food, clothing and shelter for the hordes of refugees numbering more than 110,000 Baker said.

VICKSBURG RECEIVING FLOOD REFUGEES
VICKSBURG, Miss., April 25.—Already jammed to every door, the city of Vicksburg today received additional hundreds of flood refugees from the delta region of the Mississippi river. The city now is housing more than 5000 refugees and the number is increasing rapidly with the arrival of trains from Greenville and other danger points.

Hundreds of the negro refugees are quartered in army tents pitched in a camp a short distance from Vicksburg.

Scores of families caught in the swirl of the flood are refusing to leave their marooned homes, according to the reports brought in by every ship captain who has scouted the floodwaters north of here in search of refugees.

Like War Zones
Vicksburg—built on high ground, out of reach of the flooded Mississippi—was like a city on the edge of a war zone today, as preparations were made to receive 5000 refugees from the north.

A thousand tents on the outskirts of the city housed refugees and all night flickering camp fires in front of the tents gave the city a warlike appearance it has not displayed since the days of the war between the states.

Relief work moved with military precision.

TWO MORE HURT AS AUTOS MEET AT PLACENTIA

Mrs. M. Franco, Prado, and a small child were slightly injured at noon yesterday when the machine in which they were riding with the husband and father collided with another car at the intersection of the Placentia road and the Santa Ana canyon road, according to a report filed at the sheriff's office today.

They were taken to the Orange county hospital by motorists, where their injuries were dressed and later were removed to their homes.

Joe Montoya, 13, of Placentia, is in the Orange county hospital suffering from severe head injuries as the result of an automobile accident yesterday. It was reported. Details of the accident were not learned.

William Montez, Corona, reported to the sheriff's office today that Liborla Ropas, Corona, was injured in an automobile accident on the Santa Ana Canyon road yesterday afternoon.

No one was reported injured when automobiles driven by Mrs. A. C. Pickering, Yorba Linda, and Mrs. Charles V. Porter, Seattle, Wash., collided on the state highway near Irvine yesterday. Mrs. Pickering reported that the Porter car forced her off the road while Mrs. Porter and her husband were changing seats.

Court Notes

Charges Cruelty, Asks Freedom
Mrs. Carrie E. Ellis today had a divorce suit on file in superior court against William E. Ellis, oil company employee, who is charged with extreme cruelty. Attorneys McFadden and Holden of Anaheim represent her.

Ellis embezzled funds of various oil companies that employed him, his wife charged. She declared he gambled the funds away at Mexico.

The couple have no children. They were married at Breckenridge, Texas, in 1920 and separated last June 30.

Collector Sues on Note
H. Koeppe, of Santa Ana, has filed suit in superior court against H. Garber, of Orange, demanding judgment for \$3636.35 alleged to be due on a note given to the First Commercial bank of Orange.

Would Dissolve Company
The Bear Rope Products company, of Orange, has filed in superior court an application for dissolution of the corporation. All of the four directors of the company signed the application.

Anaheim Man Sues
In two actions just filed in superior court, D. Jessurun, of Anaheim, asks judgment against Mr. and Mrs. Arthur R. Marson for \$3000 on a note and against William N. Polston for \$300 on a note. Attorneys McFadden and Holden, Anaheim, are counsel for Jessurun.

Says Mate Slapped Her
Charles E. Stein frequently slapped and struck his wife, Vera M. Stein, while they were living at Brea, Taft and San Pedro, Mrs. Stein alleges in a divorce complaint just filed in superior court. The Steins were married in Arizona in 1919 and separated April 4, this year. They have no children. Attorneys McFadden and Holden, Anaheim, represent Mrs. Stein in the divorce case.

'DESTROY' ENEMY PLANES
WHITE PLAINS, N. Y., April 25.—New York is safe from enemy planes, if theoretical destruction of a hostile fleet means anything. Sound detectors theoretically gave the hilling coast artillery of Fort Totten a warning, a 1,000,000 candlepower light theoretically spotted the foe, then Browning guns theoretically made them crash.

Husband Alimony Measure Is Signed

SACRAMENTO, April 25.—Governor Young today signed the "all-money for husbands" bill, by Assemblyman George W. Rochester, of Los Angeles.

The new law would permit a needy husband to collect alimony and separate maintenance for himself and children during and after divorce.

As a conciliatory measure to the wives of California, the governor also signed the bill by Assemblyman Eleanor Miller, requiring husbands who desert or fail to provide for their wives and families to be put to work on public roads during their jail sentence and giving the money earned, at the rate of \$2 per day, to the needy families.

MARRIAGE GOAL OF CO-EDS IN WEST VIRGINIA

HUNTINGTON, W. Va., April 25. Miss Hazel Livingston, who recently won the prettiest girl contest at Marshall college, Huntington, W. Va., declares: "I don't want to enter the movie. I'm going to college for two more years, and then I'm going to get married." Although selected as beauty queen, Miss Livingston is no different in her desires from the other co-eds at Marshall.

Three hundred girls, selected at random on the campus were asked whether they preferred a career or marriage. Of the 300, 269 desired marriage to 31 wanting a career, and 14 of the 31 intended to have both a career and a husband.

Husband Considered "Burden"
"I want to travel, have pretty clothes, and see the world," stated one who wanted a career. "I don't think I'd have a chance burdened with a husband. I intend to be a lecturer on the economic management of the home."

In this so-called selfish age, the plans of one bright-eyed little girl were unusual. "My mother is a widow," said she, "and she has worked hard to put me through high school and college. When I graduate, I'm going to teach school so that I can give my mother the things she has done without for so long."

A tear glistened in her eye as she continued: "I hope mother lives for years yet—she's only 43. I couldn't ask any man to assume the responsibility of caring for her. That is my duty, and I'll be proud and happy to do it. Only—only, there's nothing in the world I'd like better than a little home and children. But when I'm free to follow my desires, it'll be too late, for no one will want me when I'm getting old and gray."

Marriage—Not Teaching
"I want to get married," confided another. "I shall be graduated in June, but teaching other people's children doesn't appeal to me."

One serious minded senior expressed the sentiments of practically all of them when she said: "I expect to get married sooner or later, but I want a way of earning my living until the right man comes along. Then, I want a little home where my husband and I can be real pals. I want to be able to respect him, but he need not be a startling success. If he is a good husband and father, I know that I shall be happier than any woman could be with only an empty career."

Miss Amanda Lee Beaumont, dean of women at Marshall, said upon seeing the result of these questions:

"This confirms my opinion that a college education does not lead girls away from the greatest of careers, a happy home, but merely enables them to become more efficient wives and mothers."

NEW COPYRIGHT LAW IS SOUGHT

BERLIN, April 25.—The Prussian academy of arts is sponsoring agitation for a modernized copyright law which would extend copyright privileges to 50 years. The existing limit is thirty years. Authors, playwrights and composers argue that they or their heirs are entitled to income from royalties for a longer period. Cosima Wagner, 88-year-old widow of the famous composer, it is pointed out, isn't receiving a cent in royalties on her husband's compositions.

Young men

annoyed by pimply skin will find in Resinol Ointment, a quick, effective remedy for clearing away the disorder.

Unless the condition is due to some internal disturbance, the soothing Resinol properties in this ointment usually start healing action at once. Get a jar of Resinol from your druggist today, and apply lightly to those sore, inflamed spots. There will be no smarting, no stinging, no biting—just comfort. In a week's time you will be surprised to note the improvement—the gradual disappearance of the ugly blemishes.

Free trial offer—Sample each of Resinol Soap and Ointment. Write Dept. 70, Resinol, Baltimore, Md.

VAWTER SHINES IN CLASSIC AT SANTA BARBARA

Points made by Bob Vawter, running unattached, were credited to Santa Ana in the Santa Barbara Invitational meet Saturday and the two first places he won in the mile and two-mile enabled the Santa Ana collegians to take fourth place in the annual update cinderpath classic.

Vawter negotiated the mile in 4 minutes, 43 seconds and the two-mile in 10 minutes, 42 seconds. He was not pressed in either race.

Gerald Twist, captain of the local team, was fourth in the 220 yard low hurdles, running one of the best races of the season against strenuous competition.

Don Miner was fourth in both the 100 and 220 yard dashes. Another fourth place was taken by Aubrey Reinhardt in the discuss. Reinhardt's mark was 120 feet.

The meet was won by San Diego State Teachers' college. The leading colleges in the order in which they placed were San Diego 42 points; San Jose 33 1-2; Pasadena 37 1-6 and Santa Ana and Santa Barbara 14.

STATE MOTORCYCLE OFFICER MARRIED

Walter P. Greer, state inspector for the Motor Vehicle department, and in charge of state traffic officers in the five Southern California counties, was married to Mrs. Zelma Noyes, Santa Ana, at 5:45 p. m. Saturday, at the home of Justice Kenneth E. Morrison, 524 Linwood street. Justice Morrison performed the ceremony.

Following the wedding, Greer and his bride left for the Imperial valley on their honeymoon.

Mrs. Noyes is the manager of the Motor Vehicle Registration service, 114 West Third street. She opened the office here several months ago, coming from Sacramento, where she and Greer first met. She was formerly connected with the department there.

The wedding service was a simple one and attended only by close friends of the couple. Among the traffic officers who were present were C. J. Cain, Ray Bradfield and Ole Buer.

State Physicians Convene In L. A.

LOS ANGELES, April 25.—numerous new devices and systems for eradicating certain diseases and hastening cures will be taken up by the fifty-sixth annual convention of the California Medical association, which opens here today.

Amplification of the human heart beat so that the sound of that organ will throw like a municipal pumping plant will be among the devices introduced at the sessions, it was announced.

Through the same medium, other body sounds, such as breathing or swallowing food, will be amplified to "roar like thunder."

More than 2000 physicians of California and other states, including Secretary of the Interior Hubert Work, a famous nerve specialist, and Surgeon General Hugh S. Cummings, are scheduled to attend the sessions.

WATER RELIEF IS UP TO SENATORS

(Continued from Page One)

alleged damage done to the farmers of that county in removing their water supply. This resolution precipitated a battle in the lower house before it was adopted.

The Dillinger water amendment would reserve to each county in the state 15 per cent of the waters originating in that county and has had favorable action in the assembly.

The assembly will have a number of important matters ready for final vote, but none of great controversial nature.

The remainder of the crime commission bills, the gasoline tax and highway fund allocation bills, several agricultural measures and the last of Governor Young's reorganization program are the outstanding measures in the lower house.

Of the 337 bills on the files of the two houses today, the majority have a good chance of adoption before the session ends Friday.

But the fate of 238 bills in committee appeared to be sealed, as favorable committee action on a bill during the last week is unlikely.

FORBID POWDER PUFFS
TORONTO, April 25.—There's no connection, but less than a month before Ontario is becoming wet again, powder puffs have been forbidden in barber shops in this city.

Local Briefs

E. E. Long, of Anaheim, chairman of the publicity committee of the Anaheim State Picnic association, today again directed attention of former residents of Iowa to the picnic to be held at the Anaheim city park next Saturday. According to Long, preparations are being made for entertaining a large number of persons. It will be an all day affair, and former residents of the Buckeye state are urged to attend and bring their lunches. Coffee will be served free to those who buy badges, Long said.

All those interested in the work of Sunday schools, are invited to the Congregational church Wednesday evening to hear a discussion led by L. L. Beeman and Dr. L. Potter Hitchcock, the basis of which is an article in the February Scribner's on "Jimmie Goes to Sunday School," and a reply entitled "Muckraking the Bible," which was published in the Congregationalist. A pot-luck dinner at 6:30 o'clock will precede the discussion.

The second annual meeting of the Congregational Women's Missionary society of Southern California, opens at noon, tomorrow, at the Congregational church, Ontario, and will close Thursday at noon. Delegates from the Santa Ana church are Mesdames H. C. McCord, Mrs. L. M. Smith and Mrs. L. A. Beales, with Mesdames L. N. Beeman, W. B. Tedford and J. E. Gowen as alternates.

U. S. Lemon, employed on various Orange county newspapers, suffered a stroke of paralysis recently and is confined at the home of his daughter in Pasadena, according to word received here today. He is said to be unable to move or speak.

Mary A. Wright, 35, and C. M. Johnson, 37, of San Bernardino, and Joseph G. Crook, 24, and Arminia E. Serfat, 20, both of Brea, secured marriage licenses in Riverside Saturday.

A meeting of the members of the Delta Mu, De Molay college fraternity, will be held tonight, at 7:30 o'clock in the home of T. B. Kelly, 517 Fairview avenue, it was announced by Russ Hooker, scribe.

Mr. and Mrs. R. T. Rasmussen of 821 West First street have purchased a retail grocery establishment on Long Beach boulevard in Northgate.

The Westgate Steamship agency, through Francis Westgate today announced the removal of the business headquarters of that organization in their new headquarters at 318 North Spurgeon street in the Spurgeon building. In addition to the Westgate Steamship agency, the new headquarters also will be the home of the Pacific Coast Building Loan Association of Los Angeles and the real estate business of C. A. Westgate.

Arrested when he attempted to cash a check for \$25 at the First National bank this morning, John House, 19, a grocery clerk, is in the county jail, facing a charge of forgery.

Bank officials held the man until Ed McClellan, deputy sheriff, arrived and took him in charge. According to McClellan, House will be charged with forging the endorsement of his uncle to a check which bore the forged signature of the boy's mother, who resides in Sulphur Springs, Texas. The check was on a Texas bank, McClellan said.

Grocery Clerk Held In Jail On Check Charge

CHILD'S BEST LAXATIVE— CALIFORNIA FIG SYRUP

MOTHER! Even if cross, feverish, bilious, constipated or full of cold, children love the pleasant taste of "California Fig Syrup." A teaspoonful never fails to clean the liver and bowels.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Adv.

Damage Suit Against P. E. Started Today

The last of four damage actions filed against the Pacific Electric railway company in connection with a crossing wreck near Santa Ana that cost three lives, on May 7, 1925, was brought to trial before a jury today in Superior Judge Homer G. Ames' court.

Mr. and Mrs. Otis Richards, of Santa Ana, parents of Glen Richards, 19, who was killed at the wheel of the automobile involved in the wreck, are plaintiffs in the action, which asks \$28,083.50 damages against the railway company.

Three other damage actions, each involving approximately similar amounts, were tried last fall, the railway company winning victories in every case when the jury decided that no damages should be awarded. The previous suits were brought by Mr. and Mrs. W. A. Bloomer, of Villa Park, parents of Miss Willa Bloomer, 17, who was killed in the wreck, and by the Misses Marjorie and Aldene Haines, formerly of Orange, who were both injured.

The third fatality of the accident was that of Raymond Kemp, of Glendora, but no litigation resulted from his case, or from the injuries to Charles Ring Jr., of Santa Ana, who was the sixth member of the party.

County Officers Make Search For \$400 Diamond Pin

Sheriff's officers today were asked to search for a diamond and pearl sunburst pin, valued at \$400, reported stolen from the Dean Service station, Sunset Beach, yesterday.

The pin was the property of Miss Dorothy Dean. Thieves who took the pin also stole a straw suit case containing women's wearing apparel, the sheriff's office was told.

The pin was the property of Miss Dorothy Dean. Thieves who took the pin also stole a straw suit case containing women's wearing apparel, the sheriff's office was told.

JUNIOR C. OF C. OF CALIFORNIA MEETS IN S. A.

Delegates from California Junior Chambers of Commerce, meeting in Santa Ana Saturday evening for the quarterly conference, approved a general policy of encouraging and holding open air sporting events in California, particularly in the winter season, with the idea in mind of advertising California to the world as a year round playground.

Plans are already being made for \$10,000 open golf tournament of the Los Angeles Junior Chamber of Commerce and the 151 cubic inch displacement motor boat races at San Diego, delegates reported.

The Long Beach Junior Chamber of Commerce will sponsor a program of swimming events expected to attract the best swimmers in the United States. Plans of the Santa Ana Junior Chamber of Commerce were not announced but it was said that a project was being considered.

With the organization of new Junior Chambers in Glendale, Hollywood, Pasadena, Riverside, San Bernardino and San Francisco, it was considered that the time was not far distant when the young men's organizations would dominate winter outdoor sport programs, exclusive of football. Problems incident to the formation of the new chambers were discussed thoroughly by the delegates Saturday evening and a program outlined by which it was hoped the new organizations might be formed. Marson Youd, president of the state organization, was in the chair.

Harry Westover arranged an attractive musical program which was enjoyed just after the dinner. The next meeting will be held in July in Los Angeles.

W. W. Warner, who has been with the Davis-Baker company, real estate brokerage firm, in Pasadena, since last October, has returned to Santa Ana to remain.

Mrs. Emma D. Richardson has returned to her home at 1607 Durant street after having spent the winter in the home of her son, G. S. Richardson, 2023 Oakmont avenue.

Mr. and Mrs. Fred C. Rowland and Mr. and Mrs. William McKay returned yesterday from Stockton, where they went to attend Rotary convention.

Mrs. C. F. Crose will go to Ontario tomorrow to attend the Women's Missionary society conference of the Congregational church of Southern California. She is a member of the board of directors.

Miss Myrtle Meyer, Miss Blanche Westering and Mrs. Ella Parker spent the week-end with a motor trip to Bardsdale. They returned last evening, leaving Mrs. Palmer to make a longer visit with her relatives.

Park Ash, well-known contractor and pioneer of Santa Ana, and Mrs. Ash, 622 South Main street, left yesterday for the east, making the trip by automobile and planning to be away all summer.

Dr. I. W. Bouldin of 802 Garfield street, who was taken ill suddenly Friday night, remains in about the same condition, although not suffering so much. The diagnosis does not as yet show the cause of the illness.

E. S. Wescott of 335 Cleveland street, Orange, was an outgoing passenger over the Union Pacific on Saturday, going to Salt Lake City.

Among Union Pacific passengers leaving on Saturday was John Reid of 1237 Cypress avenue, his destination being Glendive, Mont.

R. M. Simmons of 2110 North Broadway was a traveler on Saturday via the Union Pacific, bound for Milford, Utah.

N. B. Pritchett, ticket clerk at the Southern Pacific office on East Fourth street, made a week-end trip to Yuma, Arizona.

Mrs. S. E. Moore, who has been spending the winter with her sister, Mrs. J. M. Stratton of 1415 West Third street, has left for her home in Canton, Oklahoma.

Mr. and Mrs. A. N. Zerman and Coroner and Mrs. C. D. Brown returned Saturday from Santa Barbara, where they motored to attend the closing sessions of the Masonic convention held there last week.

George Preble, well-known contractor, has gone to Boston, Mass., where he will make an extended visit with relatives.

Miss Angela Boedighelmer of Los Angeles was a week-end visitor at the Frank Klatt home, 201 East Washington avenue, coming down to attend the bridge luncheon for Miss Florence Badur, given at the Klatts on Saturday.

Mr. and Mrs. Chris Miller, their son-in-law and daughter, Mr. and

FAMOUS MAN COMES TO SANTA ANA

Be Sure You See and Hear
Him at Ebell Club Audi-
torium on French Street

LEO A. HAAS

World Famous Psycholo-
gist, Health Expert and
Psycho-Analyst.

Famous Maker of
Famous People

Mr. Haas is at present on his third lecture of America and this time is answering the call to Santa Ana, giving all a chance to see and hear him in a series of free lectures. Mr. Haas is vice president of the National Health and Psychological Bureau of America, and he enjoys the unique distinction of being one of the three greatest authorities on Health, Psychology, Psycho-Analysis and kindred subjects, in the world today. He is directly responsible for thousands of men and women making triumphant successes here and abroad.

Messages

His messages are new! He brings to you hitherto unattainable knowledge. He shows you how to apply the laws that bring you Health, Happiness and Prosperity, as he has shown tens of thousands of others. He will teach you these new and workable laws that quickly bring anything you may desire.

These laws are amazingly simple in their operation. Why be sick? Why be a failure? Why live in poverty or ignorance?

Do You Wish to Know?

- 1—How to acquire a money-making brain?
- 2—The Subtle Principle of Success?
- 3—How to escape drudgery and routine?
- 4—The latest and most valuable knowledge on earth today?
- 5—Bio-Chemistry of the human body?
- 6—How to recharge and rebuild the mind and body?
- 7—Why the next generation will live at least 140 years in perfect health?
- 8—How to develop a winning personality?
- 9—How to cash in on your ability?
- 10—How to develop a 100% memory?
- 11—How to express yourself in public?
- 12—How to read people on sight?
- 13—How to use mental-telepathy?
- 14—How to predetermine sex?
- 15—How to overcome any and all destructive habits—unconsciously?
- 16—More about Psychology?
- 17—The phenomena of Clairvoyance?
- 18—The law of giving and receiving?
- 19—How to use the law of Auto-Suggestion; the law of reversed effort; the law of balanced compensation?
- 20—The Great Formula in bringing your most cherished desires to fruition?

To want to know these things proves you are an ambitious man or woman—then come to the

ATTENDANCE AT ROTARY MEET SETS NEW MARK

Santa Anans in attendance at the annual convention of the second district of Rotary clubs at Stockton the last week end had returned today, happy in the knowledge that in attendance of members the conference was the largest in the history of district conventions of Rotary International and the fact that the state legislature adopted a bill providing for the care of crippled children of the state, while the convention was in session.

Assistance to crippled children has been one of the major activities of the district, and the California clubs sponsored the bill which was passed by the state legislature body. Governor C. C. Young, in an address at the conference, pledged his support to the measure and gave assurance that his signature would be attended readily.

According to information brought back by William McKay, secretary of the Santa Ana club, registrations at the convention numbered 4014, including women who accompanied their husbands to Stockton.

Al Roth, of Palo Alto, controller of Stanford university, was chosen district governor, succeeding Frederick A. McClung, of Huntington Park. The district embraces California, Nevada and Hawaii.

Donald A. Adams, immediate past president of Rotary International, was at the conference and delivered an address that aroused his auditors to a keener appreciation of the work Rotary is doing in many ways.

Dr. Tully C. Knoles, president of the College of the Pacific, was the last speaker on the program. An excerpt from his address follows, as illustrative of the trend of opinion of members of all service clubs:

"I have tremendous faith in the organization represented here today. We feel differently toward a country where Rotary is established. We know that there are Rotarians in the same vocations and with the same code of ethics. Therefore we believe it possible to have more real co-operation in international affairs. The years will not be many until Rotary is in the other nations."

"The power of business men is to be infinitely stronger. In Rotary and kindred organizations we are to have dominating influences. They will destroy the differences out of which war has grown. No formula of peace will eliminate war. Intelligence can remove the causes, so we can live together."

John R. Williams, of Long Beach, was given strong endorsement for a directorship of Rotary International. Robert Brown, of the Santa Ana club, had the honor of singing the opening and closing songs of the big gathering, the prominence of the local man on the program bringing Santa Ana to the attention of the 4000 present in an effective way.

In the delegation attending from this city were Mr. and Mrs. F. C. Rowland, Mr. Rowland being residing president; W. C. Jerome, president elect; Mr. and Mrs. William McKay, Mr. McKay being secretary of the local club; Mr. and Mrs. Charles Chapman and daughter, Elva; Mr. and Mrs. Charles Rutledge; Mr. and Mrs. Mac Robbins; Mr. and Mrs. S. J. Fluor, G. J. Daly and W. H. Spurgeon. E. B. Collier, president-elect of Orange Rotary, and Mrs. Collier, and Mr. and Mrs. Edgar Chapman, of Orange, also were in attendance.

Dr. F. B. Meyer, a famous Non-conformist clergyman of London, who has just reached his 80th birthday, plans to make a 15,000-mile preaching tour in the United States and Canada this summer.

Women's Beauty Bill of 1926 Set At \$1,825,000,000

CHICAGO, April 25.—To protect their appearances during the next 12 months, the women of the United States will spend 28 times more than Uncle Sam completes spending for battleships and airplanes to protect our national boundaries, according to Mrs. Ruth J. Meurer, head of the National Cosmeticians school, a speaker at the midwest beauty show.

Mrs. Maurer said women spend annually 50 per cent more than men do for clothes.

Women's beauty bill for 1926 totaled 1825 million dollars, she declared, some of the items of adornment contributing to this figure being hats, hosiery furs and dresses.

DRUNK CHARGES FILED AGAINST EIGHT PERSONS

Eight persons were arrested over the week-end by county and state officers on drunk charges. All were lodged in the county jail and were to be given hearings in Justice Kenneth Morrison's court today.

Charged with driving an automobile while intoxicated, R. D. Montana, 29, blacksmith, of 4416 Saint Charles street, Los Angeles, was arrested yesterday by George Peterkin, state traffic officer. Peterkin also booked Joe Duarte, 30, 824 Eighteenth street, Los Angeles, on a drunk charge at the same time.

Joe Valdez, 30, 792 East Seventeenth street, Los Angeles, was lodged in jail here yesterday for being drunk by Officer Peterkin.

Mrs. W. M. Smith, 38, Anaheim, was released from the county jail on bail of \$30. She was brought here from Anaheim on a drunk charge last night.

J. C. Rogers, 35, 638 1-2 North Wilton Place, Hollywood, was lodged in jail on a drunk charge last night by Captain Henry C. Meehan and F. G. Yoder, state officers.

Juan Grinatho, 33, was arrested for being drunk at Delhi, last night, by Ed McClellan, chief criminal deputy sheriff.

Frank Townsley, 30, janitor, of 632 North Elch street, was arrested last night by McClellan, on a drunk charge. He is in jail.

L. J. Shepherd, 38, San Clemente, is in jail today facing a drunk charge, following his arrest on the San Diego highway by Officer George Stinson, last night.

Society

Pupil Recital

On Thursday night, April 28, Miss Nellie Mal Chapman, soprano, will be presented in a benefit song recital, by her teacher, Theophilus Fitz of Los Angeles, at the home of Mr. and Mrs. Rolla R. Hays, 2108 North Broadway.

The program will begin at 8 o'clock, and artists who will assist the popular young soprano, are W. W. D. Boss, violinist, and Mrs. Robert T. Lee, accompanist. Anyone interested in hearing the program is invited.

The recital will open with a group in which Miss Chapman will sing "Break O' Day" by Sanderson, "The Singer" by Maxwell and "The Answer" by Terry. Mr. Boss will then play the "Meditation" from "Thais" by Massenet after which the young soprano will again sing, choosing "A Bag of Whistles" by Crist, "The Little Elf-man" by Wells, "The Cuckoo Clock" by Grant-Shaefer and "The Chrysanthemum" by Salter.

In her third group will be D'Hardieu's "Thy Song," "Rain" by Curran and "Love Has Wings"

by Rogers. The final song group will offer "A Day Dream" by Strelitzki and "Adoration" by Telma, with violin obligatos played by Mr. Boss.

ANNOUNCEMENTS

Ebell's Current Events section will have luncheon at the clubhouse tomorrow afternoon at 1 o'clock, with Mrs. Harvey Bennett and Mrs. Harvey Gardner as hostesses. Members of the section who find it impossible to be present, are asked to telephone the latter at 7173L.

The executive board of the Julia Lathrop P. T. A., will meet in open session Wednesday, at 3:15 p. m., in room 8. Election of a nominating committee is to be made and members of the association are requested to attend the board meeting.

Music Teachers' association members are again reminded of the meeting tonight in Earl Fraser's studio, where all music teachers are asked to identify themselves with the association. The program will be given by piano and violin winners in the county Elstedford contest.

George Meserve, who has been a member of the Boston Y. M. C. A. for nearly 75 years, is believed to be the oldest member of the organization in the United States. Mr. Meserve is 92 years old.

SCHOOL BOARD WILL ACT ON CRANSTON JOB

With the re-election of John A. Cranston, city superintendent of schools, as the principal business to come before the newly elected school trustees, a lively meeting is expected for tomorrow night's first regular business meeting of the new school board, inquiries revealed today.

Rumors were current today that the opponents to Cranston are determined to register a protest against the latter's reappointment for another term of office, and stand ready to present a petition seeking Cranston's removal from the school system.

On the other hand, it was intimated, those favoring Cranston's retention have not been inactive and may be heard from at tomorrow's meeting before a vote is taken on the superintendent's appointment.

Another important matter to be taken up at tomorrow night's regular meeting is the appointment of standing committees, including those on the budget, buildings and grounds, finance, and teachers.

Business Women Plan Booth at Scouts' Jamboree

Expressive of their interest in the Boy Scouts Business and Professional Women of Orange county have planned to join in maintaining a booth at the Boy Scouts' Jamboree scheduled for next Friday night at the county fair grounds.

The plan originated in the Santa Ana club, but Orange and Anaheim clubs entered into it at once, and Mrs. Helen Hardin, county B. and P. W. president, will appeal to the Fullerton club to join.

At a committee meeting held last week in Santa Ana, with Miss Alice Wasser, chairman, presiding, it was decided to have a grab-bag, and all club members are asked to donate "white elephants" to the contents. These are to be left with Miss Wasser by Wednesday of this week, and will be tied and prepared for the grab bag at a meeting just prior to Friday night's Jamboree.

At the first committee meeting, Miss Mabel Wimmer, president of the Orange club, could not be present but sent her representatives, the Misses Mary Hawkins and Myrtle McVean, county president, Miss Julia Goodrich, Anaheim president; Miss Louise Kaiser, Santa Ana president; Miss Lula Ott, Miss Mabel Larrick and Miss Wasser, chairman.

CHURCH SOCIETIES

Friendly Circle

The Friendly Circle class of the First M. E. Sunday school held one of its most enjoyable meetings last Friday night, in the beautiful home of Mr. and Mrs. W. A. Taylor on Bonnie Brae.

The affair opened with the appetizing pot-luck supper to which each one contributed and which everyone enjoyed. Afterwards an entertaining program opened with the showing of the picture, "The Home-Keeping of Jim." Dr. Charles F. Seltzer gave an interesting talk on the eastern trip which he and Mrs. Seltzer enjoyed last year, and several songs by Mr. and Mrs. Jesse Albright with Mrs. James E. Hughes, accompanist, completed the enjoyable program. The remainder of the evening was given over to an informal good time.

Missionary Tea

Members of the Spurgeon Memorial society to the number of 50 or more, enjoyed a missionary tea in the home of Mrs. S. W. Todd, West Chapman avenue, Orange, where sweet peas and roses formed lovely decorations.

A short program opened with devotionals led by Mrs. Henry Dodson, closing with the hymn, "I Love to Tell the Story."

An enjoyable feature of the program was a group of readings given by Mrs. Bond.

An amusing contest was then introduced, which consisted of a courtship story, the questions being answered with names of old fashioned flowers.

Delicious refreshments of ice cream and home-made cake were served by the hostess and her committee.

Berean Class

Beautiful springtime blossoms and good things to eat graced the tables at the church when the United Presbyterian Bereans met one evening late last week for another of their delightful social affairs.

A jolly mix-up game resulted in a miscellaneous assortment of forty husbands and wives who sat down to a most delectable supper.

A short business session resulted in the election of the following new executives: President, Scott Torrens; vice president, John Kuyper; secretary, Mrs. C. A. Knowlton Jr.; treasurer, Mrs. Will Hatch. Steele Finley, who has been the popular teacher for the past six months, was re-elected teacher, while Mrs. J. T. Raitt, who served the class in capacity of teacher for many years, was elected his able assistant.

The Bereans enjoy a splendid Bible study hour each Sabbath morning during the regular Bible school period. They cordially extend an invitation to anyone not attending elsewhere to join them in this service and in all other class activities.

With Mrs. Will Hatch and Mrs. Arthur McFadden responsible for the social affairs of the class for the coming summer, some delightful parties and out-door excursions are anticipated.

Merry races brought the evening to a close. The Rev. and Mrs. McPeak were guests of the class.

On last Thursday afternoon thirty-five women of the class met with Mrs. John McAuley on Orange avenue and spent an enjoyable afternoon. Trays of daintily served refreshments were part of the program.

Fidelis Class

The Fidelis class of the First Baptist church met with Mrs. V. A. Rittner on East Seventeenth street, Thursday afternoon, for a business and social meeting.

The business was conducted by the president, Mrs. David Meyer. Devotionals were led by Mrs. Farmer, after which reports of the secretary and treasurer were read. At this time the constitution was revised and adopted.

Beautiful bouquets of lilacs and forget-me-nots, which were used to decorate the home, were later sent to the sick members of the class.

At the close of the meeting refreshments of ice cream, home-made cakes and punch were served.

Causing a near-panic, a bear that escaped from its keeper during a performance at the Alexandra palace, London, recently, ignored the frightened audience but raised the concessionary stand and ate all the sweets before consenting to be captured.

SPORT CLOTHES FOR SPRING

HERE ARE TWO SMART SPORTS COSTUMES. IN ONE, MISS ACTIVITY IS READY FOR THE TENNIS COURT, WEARING A BAVARIAN EMBROIDERED JACKET OVER THE SLEEVELESS JUMPER OF HER FROCK. IN THE OTHER, SHE IS ON HER WAY TO THE LINKS WEARING A WHITE JERSEY WITH BRILLIANT BLAZER OF CREAM, TAN AND GREEN.

BY JULIA BLANSHARD
NEA Service Writer

NEW YORK, April 25.—"Boot, saddle, to horse and away!"

That cry has always called for a special costume for the woman who answers it. But while riding habits have been recognized necessities for generations, special costumes for such sports as tennis, golf, and archery have arrived comparatively recently—with the new freedom of woman.

Such a splash have sports costumes made in the last few years that not only have they been developed in greater variety each season, but their informality, nonchalance and popularity have influenced the whole realm of women's wear this year.

Fashion Dictum

Not one, but several costumes for every sport, is fashion's dictate this season. Fashioned becomingly, the tennis frock or golf costume is equally good on the porch of the country club or for afternoon wear sauntering around. Helen Willis put the simple, two-piece white silk tennis frock on the map, by her graceful Patou models—sleeveless, with knife-plated skirts, short full and light weight, made of radium, crepe de chine and other washable silks. This season sees variations of the two-piece costume. Necklines may be plain with smart stitchings or bindings of color or they may have collars. Skirts vary from plain wrap-arounds with matching bloomers to solid pleats.

Langley developed the model shown today. Fashioned from shimmering Glasse silk, it has five rows of stitching across the front of the skirt to hold the pleats in place until they leave the hip-line and the bottom of the jumper and the sleeveless armholes feature the same stitching. A Bavarian embroidered jacket in gay red, orange, blue and black design tops the costume. A red tie and peasant's kerchief around the hair match the red of the jacket.

For Tennis, White

White is the preferred tennis costume this year, made from everything from heavy crepes to sheer white voiles. Vivid bandings around skirt hems, necklines, a vivid suede belt with matching tie, or embroidery in worsteds of gay shades liven the dresses. Each must have its jacket—of embroidered linen or crash or silk in a picturesque design. Fullness of skirt, shortness of length and utter absence of sleeves are the only requisites.

The knitted or Jersey costume leads in popularity for golf. Endless variety is shown in the stitches employed in the former—the shell stitch, lacy patterns, open work, striped or ribbed designs. Color and design make the illustrated golf costume interesting.

and smart. It is a two-piece, cream jersey design, with a depressed diamond chain stitch border around the hemline and bottom of jumper. Over it is worn a blazer of cream, tan and green with roll collar revealing the cream dress. A green felt hat or green handkerchief bound around the hair completes the costume.

For the Water

Bathing suits, perhaps, give woman's individual taste and imagination the freest rein. The one-piece Jersey suit comes in tricky, colorful designs of broken stripes, or queer shapes that take their inspiration from anything from the pyramidal sky-scrapers to null-heads.

But the smartest of Lido suits usher in the dressy, bathing costume—a skirted affair carrying out an ensemble idea with the robe part of the costume. Of printed silks, they embody most of the style features of the afternoon frocks—tiered little skirts, bows here and there for trimming, flounces with inserts of tiny ruffles, and panels. Some of them are made of printed taffeta or figured crepe de chine and look exactly like the sleeveless afternoon frocks except for the abbreviated skirts. The wraps are often of taffeta or crepe and if the suit is fancy, the wrap is apt to be plain colored but of gay shade.

In riding togs, conventions are much more hidebound than in other sports wear. This season's regulation habit consists of an Oxford black coat, cream colored Bedford cloth breeches and flannel waist coat of gay color. Sand colored and brown compose habits are still as good as ever. But the accessories tell the tale of innovations. A derby this season is short in the back brim and long in front. The handkerchief and tie come in the gayest of gay combinations. Barred or stitched flannel waistcoats add a new note and the crops take their handles from the user's individual preferences. A lover of dogs has a dog's head, and so on.

Archery, Hiking, Too

Archery and hiking have their outfits, too. A leather jacket atop a full-skirted two-piece colored silk frock is ideal for the former. And of course for hiking there are innumerable styles in knicker and divided skirt models.

Each sport has its own costume. And as many costumes as possible for each sport, is the best axiom to follow in selecting the summer sports wardrobe.

Belgium's plan to reorganize its telephone and telegraph services on the same basis of the recent railway reorganization is expected to be put through later despite the delay caused by inter-departmental difficulties regarding details.

Farewell Park Party Ere Departure of Winter Guests

As a final farewell event for Mr. and Mrs. E. J. Miller of Huron, South Dakota, and Mrs. Miller's sister, Mrs. Flora Brown of Tracey, Minn., who have occupied Miss Josella Gowdy's home at 824 Minter street, during the latter's winter in Florida, was a happy Hewes Park party given yesterday by Mr. and Mrs. C. C. Langley and Mr. and Mrs. Norbert Lentz.

Mrs. Langley and Mr. Miller are sister and brother, and Mrs. Lentz is the daughter of Mr. and Mrs. Langley. Their guests were old friends from Huron, and were drawn from Los Angeles and Long Beach as well as this community. Sharing honors of the day with Mr. and Mrs. Miller and Mrs. Brown, was Donald Lentz, young son of Mr. and Mrs. Norbert Lentz, who was celebrating his birthday and who had the pleasure of blowing out the candles on a beautiful cake.

Hewes park wore its loveliest aspect for the occasion, and proved to be an ideal spot for such a happy gathering. All manner of picnic delicacies were served at mid-day and the afternoon was given over to tales of merry days together in Huron.

The honor guests will leave in a few days for their homes, but are going with the intention of so arranging their business affairs as to allow them to return to Santa Ana and establish permanent homes.

Miss Gowdy, who has been spending the winter with her brother in Florida, is expected to arrive tomorrow and will resume occupancy of her home.

Two-piece Beach Suits Shown at Seaside

SANTA MONICA, Cal.—(United Press)—Skin-tight, one-piece bathing suits, popular among beach beauties last season will be passe this summer, a "preview" of Hollywood's film stars at the gay beach clubs indicates.

Warm weather yesterday brought out the first real ocean bathing of the season and the boyish bathing suits—two pieces—with color running riot, will be the ultra-smart costume in which to "sink or swim."

Her trim figure set off in boyish fashion in a blue jersey and white trunks, Coleen Moore disported at one of the fashionable Southern California beach clubs yesterday. The initials "C. M." were smartly monogrammed in blue on a small white circular background on the jersey.

Anna Q. Nilsson's golden hair was set off with a light blue Jersey, white trunks and a sky blue grained belt while Billie Dove accentuated her beauty with an orange jersey and white trunks piped with orange down the seams.

Reds, greens, yellows and purples added to the general riot of color with flaming beach coats and bathing caps setting off the scenes.

Last year's craze for painted pajamas and beach lounging robes, imported from the Lido has died a sudden death. Instead, beach shawls, fringed after the Spanish manner, solid with colors and of varying brightness are popular.

Dolores Del Rio has introduced one that has been named the "Dolores" and the shawl fad for the beach has been adopted by Bebe Daniels and Florence Vidor.

Bridge Club Members Are Entertained at Dinner Party

When Miss Mabel Larrick and Miss Marcia Babbitt entertained the card club to which they belong, as an April Event, they extended their hospitality in the form of a dinner given at the Rose Arbor tea room.

Cecil Brunner roses established the pink color scheme chosen by the two hostesses, a color scheme that was emphasized by the dainty nut cups with their burden of bonbons and salted nuts.

At the close of the dinner, tables were arranged for bridge and the evening's contest gave victory to Miss Mayne Brightwell who was rewarded with a pretty bud vase. Consolation gift of attractive score cards, fell to the lot of Miss Susanne Claycomb.

Guests of Miss Babbitt and Miss Larrick were the Misses Mary Smart, Mayne Brightwell, Alice Wasser, Susanne Claycomb, Louise Kaiser, Elva Boyd, Pearl Nicholson, Lee Patton, Effie Douglas, Mrs. J. H. Nicholson and Mrs. Italy Lee.

You need cool Athletic Union Suits Now!

Those men who don't wear the athletic union suit the year around are about ready to stock up for summer. This comfortable Allen "A" garment cut full and roomy is of durable bar check nainsook. Its beautiful finish and workmanship make it a very noteworthy value.

ALL-YEAR CLUB WILL MENTION ORANGE COUNTY IN PUBLICITY

122,000 Advertisements to
Tell Advantages of Life
In 'Nature's Wonderland'

MANY PICTURES
WILL BE USED

Newspapers and Magazines
Will Be Employed to Tell
Eastern Tourists of State

Orange county will be mentioned in all of the 122,000 newspaper advertisements that are now running as part of the advertising campaign of the All-Year Club of Southern California. These advertisements are in 89 newspapers in 74 cities throughout the east and middle west. The newspaper campaign which has just been launched, is supplemented by advertising in the magazines which is equal in volume of that of the newspapers. In addition to being mentioned in all of the advertising on the coupon by which persons can make specific inquiry, there are many pictures of Orange county scenes additional in the magazine advertising.

The effectiveness of the advertising may be partly gleaned from the fact that during the year 1926 there were 115,589 general inquiries about Southern California, and 12,461 specific inquiries about Orange county.

"As in past years," says C. G. Milham, executive secretary of the All-Year club, who was in Santa Ana Saturday, "the advertising, on appearance, will be entirely for tourists. But the appeal is so framed that it attracts tourists of means. As in the past, a substantial percentage of all who come to Southern California as tourists may be expected to stay as permanent residents. Orange county may confidently look forward toward its share of these."

USE PLANE IN LIFE SAVING
SAN FRANCISCO, April 25.—When a ship is in distress off shore and folk must be rescued, the up-to-date way is for a plane to drop the life line aboard instead of a gun shooting it. The range of a gun for such purposes is 2000 feet. In a test an army flyer hauled a line 4000 feet from shore and dropped it on a coast guard cutter.

NOTICE TO PROPERTY OWNERS

It will be necessary for residents on South Main street, from First street to Edinger street to set out all garbage and trash on the parkway of the cross street while construction work is under way.
C. L. JENKEN,
Superintendent of Streets.

MOTION PICTURE ACTRESS CLOCKS ORANGE PACKERS

Even busy moviedom is interested in the coming contest to select the world's champion orange packer to be held at the California Valencia Orange show, May 19 to 28, at Anaheim. Here is pretty Mary McAllister, one of the 1927 baby stars, who was caught by the cameraman, doing her bit by holding the stop watch on a packer practicing for the event.

TO PICK BOYS FOR TRAINING AT U. S. CAMP

Plans are being made today for sending of five Santa Ana boys between the ages of 17 and 24 years, to the U. S. citizens' military camp at San Pedro for two weeks, beginning June 24.

The movement is being sponsored by the Santa Ana post of the American Legion, according to Jules Markel, post commander, who has been in touch with representatives of the camp at Fort MacArthur, where the training period will be held.

The Santa Ana post will be anxious to sponsor the movement to send five boys from here, Markel said, and the executive committee of the post will take action on the plan at their regular meeting, slated for next Monday night.

If the executive committee looks on the plan favorably, Markel said, the post will select five boys at its regular meeting next Thursday night.

The expenses of the training camp for each citizen soldier are paid by the government, including railroad fare to and from the camp, and the post's duty would be to look after its soldiers after they get to camp.

So far, no Orange county boys have been registered at this year's camp, and the Santa Ana post delegation will probably be the only one from Orange county, Markel said.

The world's record rainfall for one day belongs to Suva, in the Fiji Islands. This was August 6, 1906, when the fall amounted to 41 inches in 13 hours.

Expert Fruit Handlers in Practice Tilts for Orange Exposition

More than two tons of oranges can be wrapped and packed in a day, it is disclosed as practice contests are getting under way in dozens of California packing houses, in anticipation of the contest to be held at the California Valencia Orange show at Anaheim, May 19 to 28, when the world's champion orange packer is to be selected.

According to packing house figures, a packer can average between 65 and 70 boxes of oranges a day, but some can pack as high as 90, the number of boxes depending upon the style of pack. There are 12 pounds to a box, or approximately 5000 pounds in the average day's work of the packer. From five to eight minutes are required to pack a box, but that time will be cut down considerably during the contest, it is believed.

Just as the cameraman popped into one of Orange county's 30 packing houses in search of contenders for the world's champion orange packing grown, he spied Miss Mary McAllister, Wampus star of 1927, timing one of the packers who is anxious to improve on her record in anticipation of the coming contest.

HEART ACHES AS DEFENSE
NEW YORK, April 25.—Memories of a happy married life of 47 years have caused David Belasco intense agony whenever he revisited the apartment at the Marie Antoinette which he and Mrs. Belasco occupied for 20 years prior to her death last year. This is his defense in a suit by the hotel for \$1667 rent under a lease.

JOINS BRUSH UNION
BOSTON, April 25.—Jacques Carlu, noted artist, and his wife have become union painters at a cost of \$100 each. Jacques has been making mural decorations in the new Ritz-Carlton hotel and the painters threatened to strike.

'SMILIN' THRU' CAST SELECTED BY PLAY CHIEF

Harriet Owens Enderle, Val Clark, Warren Fletcher To Have Featured Parts

"Smilin' Thru," that play first made famous on the legitimate stage by Jane Cowl, and later adapted to the screen as a vehicle for Norma Talmadge, is to be the final production of Santa Ana Community Players for the season of 1926-27, and will be presented in their playhouse (Temple theater) May 10, 11, 12 and 13, according to the director, George Gerwing.

Ever since the beginning of the season, Gerwing has made efforts to secure "Smilin' Thru" for the local Players but for many weeks, all attempts seemed fruitless, as the play had never been released for amateur presentation, and such a high royalty was demanded that it seemed hopeless for the local association to think of securing it. But persistence on the part of the director in telegraphing and writing Samuel French, publisher of the play with offices in New York and London, were at last crowned with success, and the royalty was placed at a sum that the association felt was within reason.

Rehearsals are now of nightly occurrence at the theater, the cast having been practically completed several days ago. Its personnel is an example of the policy which Gerwing has tried to put into effect this season—of introducing as much new talent as possible, with enough of the seasoned players of the organization, to give confidence and balance.

The dual role of "Kathleen," the Irish colleen and "Mooney," the belle of 50 years ago, will be taken by Harriet Owens Enderle, and everyone who recalls Mrs. Enderle's earlier appearances in Community Plays, anticipates a delightful characterization, and a part fully worthy of her talent and ability.

Warren Fletcher, a favorite with the fans, will play opposite Mrs. Fletcher, and his too, will be a dual role, with interesting variations in the portrayal of each part. Val Clark, whose presentation of the chief, "Archimede" in "Enter Madame," first play of the current season, delighted everyone, will do the difficult part of the stubborn old Englishman, and the latter's youth as a dashing beau of Civil war days. The role is an exciting one, and the director has declared that to his knowledge, Clark is one of the few young men in the city who could also take the part of an old gentleman as well.

Among those who will make their initial bow as Community Players, will be Elizabeth Archer, Elaine Wharton and Charles Haas, with several extras yet to be selected.

Filled with romance, and scintillant with clever lines, "Smilin' Thru" promises to be of wide general appeal. This appeal will

(Continued On Page 8)

MAYOR OF LITTLE ROCK, ARK., CONSCRIPTS 1000 MEN TO BATTLE MISSISSIPPI FLOODS

The remarkable airplane picture above shows Little Rock, Ark., where 1000 men have been conscripted for levee duty by the mayor following refusal of 600 workmen to carry on an apparently futile fight against flood waters. In the city, which is virtually isolated from the rest of the state, 150 homes and store buildings in the eastern section, pictured here, are under water, several hundred are homeless and 75 square blocks are flooded. Below, to the left, is shown what happens to flivvers left too near Bear creek at Pawnee, Okla. To the right is a refugee camp near Cairo, Ill., one of the many camps along the Mississippi where thousands of homeless are being cared for.

FRANCES WILLARD STUDENT IS FIRST PRIZE WINNER IN NEWSPAPER ESSAY CONTEST

Ability to express herself convincingly on "What is the Benefit of Knowledge" today had won for Lillian Hurwitz, of the Frances Willard junior high school, first honors in an essay contest conducted by the Jewish Review, Los Angeles, it became known here today.

The prize winner is the daughter of Mr. and Mrs. Sam Hurwitz, 1629 North Broadway, and she is 15 years of age. She was one of hundreds of contestants, the competition having been open to children under 15 years of age all over the southwest.

Her prize is "The Book of Knowledge," a complete set of 20 volumes. "Frances Willard junior high school is justly proud of the success of one of its students," W. S. Kellogg, principal, said today, in commenting on announcement that Miss Hurwitz had won first honors in the newspaper essay contest.

The winning essay is as follows: "What greater gift or better can we offer to the state than if we teach and train our youth? These words were spoken by Cicero 1935 years ago, and what is good for the state, which is nothing but a collection of individuals, is applicable to the individual. The lawmakers of the state, the jurists who pass on the laws and the executives must all be educated in their particular line in order to make the government a successful one. Without Newton, Edison, Marconi, Pasteur and other scientists whose education has taught them to think and observe, the progress of the world would have been retarded several centuries. Plagues and diseases would have been as numerous today as in the middle ages. The various nations and races would be isolated from each other; it would take months to cross the Rocky mountains and years to circle the world. It was the philosophy and education of the fathers of our country that inspired them to create our constitution, the greatest governmental document the world has ever known. It was the long nights of study that made possible Abraham Lincoln's wonderfully phrased and convincing speeches and the conversion of millions of people to the

idea that slavery is barbaric. It is the education of the common people that has placed America as the foremost country in the world, and it is the lack of it that has put China to sleep for centuries. "Just as civilized nations and the world at large have greatly benefited through education, so does the destiny of the individual depend on education. From biographies we learn how great men and women have lived. Can any one fail to benefit from reading Benjamin Franklin's autobiography or Helen Keller's 'Story of My Life'? From history we acquire inspiration to serve God and our country. We learn of the sacrifices people have made for an ideal and for the love of country. It forms our character, morals and manners by learning of the dilemmas and decisions of wise men and women before us. It teaches us to think and observe, to analyze and decide many difficult problems for ourselves. "But education is not only of intellectual and moral benefit, it is also the means of making a livelihood, of providing a future. Physicians, attorneys, engineers, scientists and lecturers are in great demand, to say nothing of educators. "Give me education above everything else. It can never be lost, and, paradoxical as it seems the more of it you give to others the more you retain for yourself."

NOTICE TO PROPERTY OWNERS WEEDS

The City of Santa Ana will commence cutting weeds April 26th; if same have not been taken care of by the property owner, prior to the arrival of the city forces, the Street Department will cut the weeds without further notice.

Your attention is called to the fact that during previous years it has been necessary to reclean some lots where the weeds have only been partially cut by the owners. In order to avoid this confusion if any owner is uncertain as to whether their lots are properly cleaned, please call Phone No. 1136 and a city inspector will be sent to inspect the lots.

C. L. JENKEN,
Superintendent of Streets.

Spring DRY CLEANING

This is a message to the lady of the house. It's time for Spring cleaning, and that means not only your house, but your clothing as well.

Yes, we clean men's clothes, too.

LIBRARY HERE HAS BOOK OF GREAT VALUE

Outsiders often have wondered at the growing popularity of the reference department of the Santa Ana city library, but if they would arrange to spend a morning there under the careful supervision of A. L. Alexander, the mystery immediately would be cleared up.

If the interested one expresses an interest in old and rare volumes, Mrs. Alexander will see that his interest is satisfied, for in her charge she has one of the most complete collections of valuable books to be found in a library of the size of the Santa Ana library.

There are volumes on religion, a series of three books by J. James Tussor on "The Life of Jesus Christ," "The Holy Bible in three volumes" and "The Modern Reader's Bible" by Moulton. These books are beautifully bound, and filled with wonderful illustrations, depicting scenes connected with the history of the Bible.

Books on Costumes
Next, if the librarian is satisfied that the inquirer's interest is real, she will show him such volumes as "Zur Geschichte Der Costume," "Historic Dress in America," "Le Costume chez Les Peuples Anciens et Modernes" and one of the series of costume books entitled "Le Costume Historique," by A. Racinet. Here, indeed, is a real treasure. Seldom is such a complete outline of costumes given in one series as is found in "Racinet." And "Zur Geschichte Der Costume" sends feminine readers into ecstasies of delight, so charming are the costumes to be found there.

Following closely upon the last mentioned books are other costume books, of a slightly different type. There is "The Folk Costume Book," by Frances H. Haile, which has to do with the national dress of various of the European countries. "The Woman of All Nations," by T. Athol Joyce and N. W. Thomas, hardly lives up to its name, as its chief concern is a description of the dress of the so-called barbarians or savages of today, such as the Polynesians, Samoans, etc.

Then, there is that beautifully bound book, "The Curious Lore of Precious Stones," by George Frederick Kunz. Naturally, this book, filled, as it is, with colorful representations of some of the world's most precious stones, would appeal to the human heart.

Architecture of World
There are volumes dealing with architecture throughout the world. Included in this list are "A History of Architecture on the Comparative Method," by Sir Banister-Fletcher; "Architecture and Applied Arts in Old Spain," by August L. Mayer, and "The House of God," by Ernest H. Short. There is a feeling of reverence connected with the examination of "A House of God," because of the sudden realization of all of the beautiful and heart breaking work put into the building of these churches, mosques and temples. It is interesting to note that even the most beautiful illustra-

WATER LEVELS OVER COUNTY HIGHER FROM WINTER RAINS

Raises in Wells Range from Five to 14 Feet, According to Hoy's Figures

RELIEF WILL BE
ONLY TEMPORARY

Looks to Colorado River as
Way of Putting Pumped
Water on County Land

Benefits of the February rains to the water strata is being reflected very noticeably in the levels of wells in different sections of the county, it was revealed today by W. W. Hoy, civil engineer, who is maintaining a monthly record on wells in certain districts, and with water superintendents of Orange and Santa Ana.

The raise in the levels vary in different parts of the county, and range from approximately five feet in Santa Ana wells to 14 feet in one of the wells of the Orange municipal plant on Jamison street.

Hoy is engineer for the Santa Ana River Development company, and the fact is partly responsible for his maintenance of the records. The checkings are furnished the two irrigation companies regularly and also are sent to F. C. Ebert, Los Angeles, hydraulic engineer for the United States survey.

Sees Two Years of Benefit
Commenting on the influence of the recent rains and comparing with conditions following the floods of 1915, Hoy pointed out that increase in underground streams following the 1915 storms lasted for only two years, and he anticipated the same reflection for the heavy storms of this winter season.

The engineer stressed the point that even should heavy rainfalls continue for the next three or four seasons, water would not be stored in sufficient volume to meet the present demands being made on the streams by pumping.

He estimated that over a period of 35 years, with rainfall normal with the five cycles of the past 35 years, the draft from wells in the county would exceed by 40,000 acres feet annually the supply reaching the strata.

Looks to Colorado River
Comments on the situation offered Hoy the opportunity to further emphasize declarations he has made in the past that the future salvation of this valley lies in the direction of the Colorado river.

"We must have water from the outside for domestic purposes and to release for irrigation purposes what is now used domestically," he said.

Following are some of the records for wells under observation by Hoy and the water superintendents mentioned.

Well No. 5, First and Flower streets, Santa Ana—June, 1926, level below the surface, 84.5 feet; December, 1926 71.4; February, 1927, 65.82; April, 1927, 60.8.

Well No. 8, Fourteenth and Poinsettia, Santa Ana—July, 1926, 94.7; December, 1926, 88.6; February, 1927, 76; April, 1927, 70.4.

Well No. 4, Jamison street, Orange—August, 1926, 173; December, 1926, 164; April, 1927, 150.

Edison Station Katella—May, 1926, 89; December, 1926, 107; April, 1927, 92.

George McGuire ranch, west of Anaheim—November, 1926, 43; April 1927, 27.

Hellman ranch, well at the junct-

LIBRARY HERE HAS BOOK OF GREAT VALUE

(Continued from Page 7)

tions in "Architecture and Applied
Arts in Old Spain" have to do
with the cathedrals there.

Art comes in for its share also.
Here, however, one finds that a
large number of the reference
books have to do with art of the
Orient. There are such volumes
as "Byzantine Art," "Chinese Art,"
"A History of Japanese Colour-
Prints" and "Epochs of Chinese
and Japanese Art." These books
are offset by a few such valued
volumes as "Art" by Rodin, and
"Apollo" by S. Reinach.

Art of Orient
But it is in the books on Chi-
nese and Japanese art that the
reference library excels. Here are
some of the most lovely books the
writer has seen. Perhaps the
books, themselves, are not un-
usually beautiful, but the ex-
quisite illustrations are as nearly
perfect as is possible. The art
found here is suggestive of a
civilization long since outlived,
and the feeling of reverence re-
turns when a particularly lovely
picture, painted thousands of years
ago, is seen.

Of course there are many books
of histories and discussions of
modern lands which will interest
many people, as well as books hav-
ing to do with music, painting and
literature.

Although they are kept behind
locked doors, Mrs. Alexander is
ready at any time to allow one to
inspect them and find for himself
what treasures they are.

Rains Increase Water Levels In Orange County

(Continued From Page 7)

tion of Los Alamitos-Westminster
roads. This is a flowing well and
in 1922 was 25 feet above sea level.
In four years following it dropped
to 13-12 feet above sea level, and
went to its lowest point last No-
vember, when it was 8-1-2 feet
above sea level. In April it had come
back to 17-1-2 feet above.

Arestian well at Westminster
school house now registers at \$9.90
feet above sea level, gaining from
32 feet above in November.

John Brewer Garage at Talbert—
October, 12-1-2 feet above sea level;
April, 23 feet above sea level.
Anaheim city well—September,
1926, 112 below surface; January,
1927, 99; April, 1927, 89.

Blaeholder Is Tulsa Hero In Opening Games

George Blaeholder, young Garden
Grove pitcher who was recently
turned back to Tulsa by the St.
Louis Browns, started in with the
Oilers just where he left off last
year, the premier moundman of the
Western league.

Blaeholder hurled the opening
game of the Western loop, beating
Des Moines, 8 to 4. Later in the
week, against Omaha, he was called
in to rescue a Tulsa pitcher who
was wobbling in the ninth with a
4 to 2 lead and the Orange county
boy saved the day for the Oilers by
retiring the side in order.

Trojan Invading Teams To Be Told

LOS ANGELES, April 25.—Two
groups of Southern California track
and field men who will compete at
the Washington relays in Seattle
and the West Coast relays at Fresno,
both on April 30, will be an-
nounced by Coach Dean B. Crom-
well tomorrow, following the regular
meeting of the Trojan athletic com-
mittee tonight.

Coach Cromwell has drawn up
tentative lists for these two affairs
for the approval of the committee.
He expects to take 13 men to Seat-
tle with him and send a team of
about 15 men with Assistant Coach
Tommy Davis to Fresno.

L. A. Angler Wins Prize at Newport

NEWPORT BEACH, April 25.—
W. N. Mills, of Los Angeles,
caught the largest fish in the
Newport Harbor district yesterday
when he pulled in a 7-1-2 pound
spot fin from the bay.

The fish was worth \$15 to Mills
as that was the amount awarded
by the chamber of commerce for
the largest fish caught in the har-
bor district during the day.

N. S. Robinson, of Santa Ana,
and Richard Harding, of Los An-
geles, tied for second, each landing
a 5-pound fish. The two men di-
vided a prize awarded by the
chamber of commerce.

'Smilin' Thru' Is Selected As Next Community Play

(Continued From Page 7)

not lie in the plot alone, nor in the
setting (a lovely old English gar-
den) but in the conflicts and
amusing situations arising from
the fact that a stubborn old En-
glish country gentleman (Val
Clark) is constantly being crossed
by his niece (Harriet Owens En-
derle) and his very best friend,
both of whom seem to be leagued
against him.

In the second act, the hands of
time are turned back 50 years, and
a dramatic setting unequalled in
the history of Community Players,
will be revealed. The third act re-
turns down the decades to the
same English garden just after
the World war, with a returned
soldier crippled in one leg, as the
center of interest.

It would be impossible to com-
pare the play with previous local
offerings, for its theme is so rad-
ically different from anything yet
attempted by the Players. But it
promises to go down in S. A. Com-
munity Players history as one of
the big successes, having all the
elements—competent direction, ca-
pable cast, excellent scenic artists,
a poignantly interesting story, and
as a final contributing factor, a
happy ending.

Bobzien Triumphs In Race at Ascot

LOS ANGELES, April 25.—F. W.
Bobzien, Sioux City, Iowa racing
pilot, is the king of Ascot speed-
way today by virtue of his victory
in yesterday's 50-mile race.

Bobzien came through on three
tires when his fourth was hanging
in shreds about a rear axle of his
car in 46 minutes flat.

Bill Spence in the Kioffer Special
won the one-lap helmet dash, and
led from the 25-mile mark up to the
forty-eighth in the feature race
when two blowouts forced him to
idle along and edge into second
place.

Leon Duray Enters Indianapolis Race

INDIANAPOLIS, April 25.—Leon
Duray, Los Angeles, has entered
the annual 500-mile automobile
race to be held here May 30, it
has been announced.

ON THE TRAIL OF BIG LEAGUERS

Yesterday's hero—Bob Fother-
gill, who was responsible for De-
troit's 4 to 3 victory over Chicago
when he stole home in the ninth
inning with the winning run.

Babe Ruth hit home run No. 3
as the Yankees beat the Washing-
ton Senators, 6 to 2. A sixth in-
ning onslaught was responsible for
five of New York's runs. Meusel
duplicated Ruth's home run feat.

Alexander was in world series
form as he pitched St. Louis to a
2 to 1 victory over the title con-
tending Pittsburgh Pirates.

The Chicago Cubs came to life
behind excellent pitching of Charlie
Root to defeat Cincinnati, 5 to 3,
in the series opener.

The New York Giants and Bos-

BOULDER DAM BODY REELECTS JOHN L. BACON

John L. Bacon, mayor of San
Diego, will continue another year
as president of the Boulder Dam
association, it became known here
today, with receipt of information
from Las Vegas that Bacon was
re-elected at the annual meeting
of the organization held there
Saturday night.

The annual meeting of the as-
sociation was the occasion for a
pilgrimage to the Nevada city by a
large group of prominent men of
Southern California. Inspection of
the Boulder and Black canyon dam
sites on the Colorado is included in
the itinerary of the visitors. Visits
to these points were to be made
yesterday and today. Tomorrow
the group will leave Las Vegas for
Blythe and the Imperial valley.

A number of Santa Ana men are
in the party, among them being
Col. and Mrs. S. H. Finley, Mr.
and Mrs. George Raymer, Mr. and
Mrs. C. C. Camm, C. E. Parker,
John Cubbon, Fred Humiston and
C. F. Skirvin.

INDIAN REFUSES TO GIVE UP HIS TRIBAL LANDS

SPOKANE, Wn., April 25.—Near
the spot where the Stars and
Stripes were first unfurled in
Washington, Long Jim, last of a
great Indian was chief family, is
making his stand against civiliza-
tion.

The wilderness home of the war
chief of the Chelan, Methow and
Okanogan Indians, has changed
little since the first visit of Astor
fur traders in 1811. Virtually the
only concession Long Jim has
made to advancing civilization has
been the education, in the white
man's schools, of his daughter,
Princess Jessie Jim. She was pro-
claimed Princess America II at the
National Indian congress here last
July and later an honor guest at
Atlantic City.

Long Jim took his present home
along the Okanogan river on the
Colville reservation after years of
bitter struggle against early set-
tlers and U. S. Indian agents. The
old chief desired to live and die on
the land of his fathers at the
mouth of Lake Chelan in North
Central Washington.

One of his great fights ended
when Indian agents put him in
jail for nine weeks for refusal to
give up tribal lands on Lake Chelan
to white men. Long Jim was
released when courts ruled he was
entitled to a square mile of his
tribal holdings. But having con-
trolled a vast territory from the
Cascade mountains to the Colum-
bia river, he refused to accept the
allotment.

Bitter against the white man, he
left the ancient Indian home, and
moved to a old camp ground on
the reservation, 50 miles east. He
paid his cousin, Columbia Jim, to
move and leave him in solitary
possession of the wild tract. He
still refuses to accept the settle-
ment involving his relinquishing
the Chelan holdings or to accept
any money accrued from it.

SUMMERS SETS NEW TIME FOR CHANNEL

SAN PEDRO, April 25.—Byron
Summers, 28-year-old Los An-
geles swimmer, smashed all Cata-
lina channel records yesterday
when he negotiated the 20-odd
miles between the Catalina Island
tunnel and the mainland in 12h.
35m. This was just two hours and
ten minutes faster than the time
made by George Young, Canadian
youth, when he won the \$25,000
Wrigley marathon in January.

Summers finished strong, with-
out any ill effects, and pro-
nounced himself in good condition
except for being "mortally weary."
He plans to compete in the \$50,000
Lake Erie swim this summer.
George Young already has entered
the event.

He enjoyed the best possible
water conditions, and the weath-
er, for the most part was favor-
able. The channel was much
warmer than when Young crossed
it in January, and Summers did
not strike an adverse current
throughout his entire journey.

NEWSPAPERS HELP AUTHORS
NEW YORK, April 25.—Newspap-
ers' value as the basis for books
is shown by the report of E. H.
Anderson, director of the public
library. Authors of fiction study
the news to develop their plots;
there is much research in the files
of papers for data for histories,
biographies and other works.

Breakfasts That "Stand By" You

Quaker Oats Supplies Vigor to Speed up Your Mornings

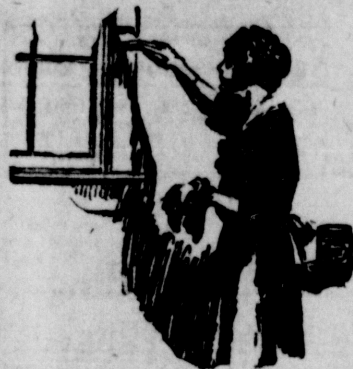

NOURISHING breakfasts of well-balanced food are now being widely urged by authorities as an important aid to business success of adults, and physical and mental development of school children.

Some 70% of the day's important work in the business world, it is now known, falls into the four morning hours, 80% of the important school work, in thousands of schools and colleges recently investigated, including Princeton, Harvard, most state universities and public schools, falls in the same period.

To be right mornings, you must eat right food; meaning rightly balanced, complete food.

Thus Quaker Oats—excellent balanced in protein, carbohydrates, minerals, vitamins "B" and the bulk that makes laxatives seldom needed—is the world's dietetic urge. Savory, delicious food that "stands by" you through the morning. No other cereal compares. Always remember that. Get Quick Quaker—which cooks in 2 1/2 to 5 minutes—or regular Quaker Oats today at your grocer.

Quaker Oats

Easy to apply!

Flows freely and leaves no brushmarks—

Produces a finish so smooth it washes like tile—

Rivals finest enamel in beauty but costs less and covers better—

Guaranteed to remain white longest—or may be tinted to match any color scheme.

PUBLIC SCHOOL WEEK BOOSTED BY S. A. MASONS

In pursuance of the admonition of Abraham Lincoln that reverence for the laws be breathed by every American mother to the lisping babe that prattles on her lap and that it should be taught in schools, Masonic lodges of California, in accordance with the proclamation issued by Grand Master George L. Jones, will celebrate this week as public schools week. It will be the eighth annual observance of this event by California Masons.

Active and continual public support of the public school system is urged. The Masons of California are intensely interested in and stand solidly in support of the public schools of the state. As a tangible manifestation of this attitude there is set aside once each year a week designated as public schools week. During this week all Masonic activities are suspended throughout the state and the time devoted to service in the interests of public schools.

The Masonic lodges aim to get in character with the public schools. Entertainments and speeches are arranged for. The movement has no ulterior motive and is not designated to advance the cause of Free Masonry but seeks to bring home to the public the cause of public education, obedience to the laws and good citizenship.

Santa Ana lodges have arranged for a meeting in the High School auditorium at 8:00 p. m. on Tuesday. There will be musical numbers, athletic stunts and an address by the Rev. W. Judson Oldfield, representative of the Scottish Rite bodies in educational work, and pastor of the First Congregational Church of Brea.

Lodges participating in this meeting are Santa Ana No. 241, B. Hewitt, Worshipful Master, Silver Cord No. 505, Owen Murray, Worshipful Master, Jubilee No. 604, J. G. Sutherland, Worshipful Master.

PLACENTIA
PLACENTIA, April 25.—The Woman's Christian Temperance Union will hold its regular meeting on Tuesday morning at 10:30 o'clock at the home of Mrs. J. F. Prather on Rose drive. A program is being arranged for the afternoon. At 12 o'clock, a covered dish luncheon will be served to which all are asked to contribute. Hostesses for the day include Mrs. Prather, Mrs. Walter Prather, Mrs. J. H. Rowe, Mrs. E. Peyton and Mrs. S. W. Ingham.

The social circle met in the Presbyterian church parlors on Friday for an all day meeting and spent the day quilting. Several business men of the town including the pastor, Dr. G. A. Manshardt came in for the luncheon. The president, Mrs. George Cowan, and Mrs. James W. Cohoe had charge of the luncheon. The next meeting will be a call meeting at the church and will be for work only, on Friday.

The beautiful ranch home of Mr. and Mrs. William Berkenstock was the setting for the meeting of the B. G. N. Card club, when they gave an evening party to include the husbands of the members. Those present: Mr. and Mrs. E. Knight, Mr. and Mrs. A. Pu-rotti, Mr. and Mrs. Fred Cline, Mrs. Elizabeth McFadden, Mr. and Mrs. T. L. McFadden, Mr. and Mrs. George Forster, Mr. and Mrs. C. E. Blattner, Mr. and Mrs. Sam Newnes, and substituting for Mrs. J. D. Sturdevant and Mrs. James O'Brien were Mr. and Mrs. Victor Robinson, Mr. and Mrs. George Meyer and a guest, Mr. Franz, and the host and hostess, Mr. and Mrs. Berkenstock.

The women's prizes offered for the highest scores at the evening's games were won by Mrs. Forster and Mrs. Robertson and the consolation went to Mrs. Cline. The men's prizes were won by Mr. Franz, Fred Cline and Victor Robinson was consoling.

Prof. and Mrs. Glenn Riddlebarger entertained on Sunday, Mr. and Mrs. John Vernon, of Orange, and Mr. and Mrs. Walter Dunlop and family, of Santa Ana. The High School Girls' Reserves club of the Presbyterian church gave a party on Thursday evening in observance of the birthday anniversaries of two of their members, the Misses Frances Ipsin and Thelma Linebarger, at the home of Mr. and Mrs. George Johnson on Valencia avenue. The refreshments took the form of a pot-luck supper to which all contributed.

Those at the party were the leader of the club, Mrs. S. C. Harmony and the Misses Florence Johnson, who is president of the club, Violet Johnson, Thelma Linebarger, Ruth Mackintosh, Annie Peterson, Johanna Linke, Ellen Linebarger, Ardith Wagner, and Frances Ipsin. The members were presented with a handsome dresser set. Miss Carrie Haviland, who has been a house guest in the home of her sister, Mrs. Adella Coyle, during the past four or five months, has returned to her home in the east.

Mrs. N. F. Chormicle is still very ill and has been taken to the Johnson-Wicket clinic at Anaheim. Her young daughter, Winifred Chormicle, is quite ill at the home of her grandmother at Cucamonga.

Mrs. Horace Lucy was a guest for two days last week at the home of her son-in-law and daughter, Mr. and Mrs. R. B. Marster, in Santa Ana.

Thomas E. Taylor, manager of the Placentia bank, was in San Francisco on Wednesday on business.

Burton Baston, young son of Mr. and Mrs. Evelyn Baston, is quite ill with the measles.

Fred Woodson, assistant manager of the local bank and Mrs. Woodson left on Saturday on a week's motor trip to Arizona.

Bobbie Green, son of Mr. and

SAN BERNARDINO'S NEW COURTHOUSE

GREELEY TAKES CHAMBER REINS

J. P. Greeley, of Balboa, will "be seen in action" at the meeting of the Associated Chambers of Commerce of Orange county to be held Thursday evening, at 8:30 o'clock, at the Mission Inn, Fullerton, for the new president and other officers of the organization will assume active control of the chambers at that time. The new officers were elected at the annual meeting held in this city last month. It is expected that the new president will announce the personnel of the standing committees, and present an outline of his plans for the year.

Greeley said today that nothing had been done as yet to develop a special program for Thursday evening, but that he anticipated organization of a program that will make it worth the while of delegates to attend.

TWO ORCHESTRAS PLAY AT BALBOA

Two orchestras were again featured at the Rendezvous ballroom, Balboa Beach, over the week end, according to H. B. Tudor. The dance music was alternated Saturday evening and Sunday afternoon and evening between Peavey's orchestra, which has filled previous engagements the past few weeks, and Dean McCuskey's band.

The former orchestra, is from New York and has proven very popular with dancers at the beach city. McCuskey organized and was leader of the Orange Aggravator, a musical organization which played at the Rendezvous two years ago.

Mildred Title, blues singer and a western vaudeville star, was a feature of the entertainment.

Peavey's orchestra, together with Maurice Mosgette, Los Angeles singer, was a feature of the program at the charter dinner of the Balboa Exchange club, given last Thursday night in the Newport Beach Yacht club.

Placentia Bank Official Promoted

PLACENTIA, April 25.—Fred Woodson, assistant manager of the Placentia branch of the Bank of Italy, is taking up the duties of a manager for the Bank of Italy, starting as soon as he and Mrs. Woodson return from their vacation. Mr. Woodson is not at liberty to discuss the branch he is to take charge of until he returns. During their three years' residence here, Mr. and Mrs. Woodson have been prominent in church, social and musical circles.

Mrs. C. L. Green, has been quite ill for several days.

Mrs. Elizabeth Brunsdon is improving her house on Melrose street with a coat of new paint.

Mr. and Mrs. Henry Siefert, living on the same street, have given their house a new coat.

Virgil Roger, brother-in-law of Ivan Pike, local realtor and a former resident, now making his home in Anaheim, has just returned from a two weeks' trip to Kansas, called there by the illness of his brother.

Dr. G. A. Manshardt, pastor of the Presbyterian church, and four of the members of the church board attended a banquet on Thursday evening at 6:30 o'clock in Los Angeles in the Chamber of Commerce building. The meeting was held in the interests of the retired ministers' pension fund. About 300 people attended the banquet.

Ira MacNames, C. L. Green, Mrs. Theodore Meyer and Mrs. Lewis Solesbee and their piano accompanist, Mrs. Ethel York, drove to Buena Park on Friday evening and gave a number of quartette selections at the evangelistic services held by the Rev. Neal in the Congregational church. The Rev. Neal is a former pastor in the Methodist church in Yorba Linda.

Victor M. Thomason was struck by a drill pipe while employed by the C. M. O. Company a few days ago, severely bruising his chest and fracturing a rib. His physician thinks he will be confined to his home for several weeks.

Mr. and Mrs. James W. Cohoe and Mrs. Barbara Carrow, of Fullerton, spent the week-end evening as guests of Mr. and Mrs. J. H. Ziegenfuss, of Huntington Park.

Miss Ada Sturdevant and Mrs. John Tuffree attended the executive meeting of the W. C. T. U. in Cucamonga on Friday.

Contrary to general belief, King George on all his railway journeys pays full fare for himself, the queen and every member of the royal household in attendance.

Hiram Johnson to Speak at Dedication to Be Held Next Saturday

The seventy-fourth anniversary of the founding of San Bernardino county and the dedication of San Bernardino's magnificent \$1,000,000 courthouse will be observed with fitting ceremonies Saturday afternoon at 2 o'clock.

Senator Hiram Johnson will be the principal speaker. It is likely that Senator Johnson will discuss the Boulder dam project at the conclusion of the dedicatory address.

The formal program will be in two parts, the first to consist of the flag raising ceremony and unveiling of two bronze plaques, the second, the various speaking numbers. Two hundred Boy Scouts will assist in handling the crowds.

C. S. Crain, chairman of the board of supervisors, will be chairman of the day. J. C. Smith of Highland, is chairman of the general county wide committee. W. M. Bristol will read the poem "The Flag" by the late Charles L. Frazer of Highland. Martha Alice McKenzie as the "Goddess of Liberty" will sing the Star Spangled Banner. Judge Benjamin F. Warner will speak at the unveiling of the tablet bearing the county officials' names and Joseph E. Rich will act in a similar capacity in the unveiling of the historical tablet of the Native Sons. Several other numbers are on the program.

Interest in the affair is keen with boards of supervisors, mayors, city officials and state officials being invited from all sections.

One of the features will be the appearance of 10 pioneers who spent a year in the old fort on whose site the new court house stands. This was in 1851 when Indians threatened massacre of the inhabitants of the little town. Several thousands persons are expected to be in attendance at the ceremonies.

DROP AIR BILL CHARGE

INTERLAKEN, N. J., April 25.—Because he has flown to fame, Clarence D. Chamberlain, joint holder of the endurance flight record, may now fly back to spotless Interlaken if he desires. There has been a warrant out for him since last summer, when he dropped real estate circles from a plane, littering the beautiful streets. But now the authorities will not serve it.

MONUMENT TO COLUMBUS

NEW YORK, April 25.—A monument of three central figures, representing Columbus, Ferdinand and Isabella is to be designed by Mrs. Harry Payne Whitney for erection at the starting point of his voyage. She has just returned from Palos, Spain, where she obtained ideas for the Columbus Memorial Fund, Inc., of which Alexander P. Moore is president.

FATHER PROTESTS CAR BAN

NEW YORK, April 25.—A surprising number of fathers protest when colleges restrict use of automobiles by students, as Prof. C. J. Tilden of Yale expresses it. "Many fathers consider the use of automobiles by their sons to be a distinct social asset," he explained to the National Highway Traffic association.

NOTICE TO PROPERTY OWNERS (WEEDS)

The City of Santa Ana will commence cutting weeds April 26th; if same have not been taken care of by the property owner, prior to the arrival of the city forces, the Street Department will cut the weeds without further notice.

Your attention is called to the fact that during previous years it has been necessary to reclaim some lots where the weeds have only been partially cut by the owners. In order to avoid this confusion if anyone is uncertain as to whether their lots are properly cleaned, please call Phone No. 1136 and a city inspector will be sent to inspect the lots.

C. L. JENKEN,
Superintendent of Streets.

STOP BAD BREATH

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

Dr. F. M. Edwards discovered the formula after 20 years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil. You will know them by their olive color. Take nightly for a week and note the effect. 15c, 30c, 60c. All druggists. Adv.

POLICE OFFICERS BEGIN VACATIONS

Another indication that summer has arrived, other than the high temperature of the last several days was made today with the announcement by Claude Rogers, city marshal that police officers would draw for their summer vacation periods today.

All officers have been instructed to be at headquarters this afternoon to draw vacation dates starting May 1.

Web Sherwood has been appointed as special police officer to serve during the vacation period, Rogers said today.

Because of illness Officer A. T. Holmes was granted his vacation period of two weeks, to start immediately. Holmes will go to the mountains today, it was said. Officer T. H. Bond will take Holmes place at Fourth and Main streets as traffic officer, and Sherwood will replace Bond on his downtown beat in the day time, Rogers announced.

CLASSIFIED ADVERTISING
Register Want Ads
All Want Ads will be placed under their proper classification. No exceptions.
Personal, Situation Wanted and Furniture for sale will not be taken over the phone.
The Register will not be responsible for more than one incorrect condition of any Want Ad ordered for more than one time, and then only by republication. Absolutely no cash rebate allowed except at the discretion of publisher. Errors not the fault of the advertiser, which clearly leaves the value of the advertisement, will be rectified only by republication, without extra charge, within FIVE days after insertion.
The Register will not be responsible for errors due to illegible copy.
All Want Ads must be in by 11 a. m. to insure proper publication in all regular editions.
BOX OFFICE REPLY
The Register postoffice department is conducted for the benefit of patrons who wish answers to come to the office. Advertisers are furnished with identification cards which must be presented at The Register office. For the protection of our patrons, replies are not given out except on presentation of box card.
No record is kept of the names and addresses of patrons using The Register postoffice, and therefore no information concerning these advertisers can be supplied.
A charge is made for the words "Box A234, care The Register."

FIVE POLYITES REACH PREP MEET FINALS

Mateer, Holmes To Meet In Golf Finals

CLARK, SMITH ELIMINATED BY TWO SURVIVORS

Druggist Scorns Tradition and Plays in Semi-Final Round with New Sticks

E. T. Mateer, Santa Ana druggist, and Ed Holmes Jr., local insurance agent, will clash in the final and championship round of the President's cup golf tournament at the Santa Ana Country club.

The title match probably will be staged over the grassy fairways of the beautiful local course next Sunday, Holmes conceding a four-hole handicap to his opponent.

Mateer won his way through the semi-finals at the expense of Hugh Smith, 2 up, while Holmes quashed the championship hopes of M. W. Clark, 2 and 1.

Mateer's triumph offered one of the most novel sidelights in the annals of Santa Ana golf. The druggist obtained a new set of clubs the day before his important match with Smith. Tradition dictates that new clubs should be used during practice rounds, certainly not in crucial tests where the "feel" of the old sticks means so much, but traditions meant nothing to Mateer. He put the new clubs in his bag and trudged out on the links, using the little strangers for the first time in his life. He shot fine golf in beating his foe, Mr. Smith, one of the club's leading experts.

Holmes led Clark all the way, turning a card with a net 75, good enough to have defeated the best. Results of matches and sweepstakes play follow:

Championship Flight—E. T. Mateer beat Hugh Smith 2 up; Ed Holmes Jr. beat M. W. Clark, 2 and 1.

Defeated 32—George Baker defeated J. K. McDonald, 1 up; Defeated 8 and Winning 32—Morris Cain won from Frank Purinton, default; George A. Parker beat J. E. Liebig, 2 and 1; Norman Hoyle beat R. E. Graves, 2 up; R. G. Cartwright beat J. S. Warner, 7 and 5.

Defeated 8 of Defeated 32—George Shattuck beat Otto Jacobs, 1 up; William Rohrbacher beat L. W. Slaback, 1 up; H. H. Williamson won from R. E. Emison, default.

Mixed Foursome (Sunday)—Mrs. Ed Holmes and L. W. Bemus 96-26-70; Mrs. W. C. Fletcher and Dean Colver 109-33-76; Mrs. L. W. Bemus and Ed Holmes Jr., 108-30-78.

Weekly Sweepstakes (Saturday) W. E. Chilson, 2 down; E. B. Van Meter 3 down; R. G. Cartwright 3 down; O. A. Jacobs 3 down; Ed Holmes Jr., 3 down.

Santa Ana Gentlemen Prefer Uttley Suits

When you order a suit from Uttley you are buying clothes satisfaction. Every suit fits perfectly and made perfectly—right in our own shop. The prices are very reasonable for tailor made clothes.

LEONARD'S DOUBLE MAY BE NEXT CHAMPION

JACKIE FIELDS

BENNY LEONARD

Benny Leonard never may return to the squared circle. As a result, when 1927 fades out, the crown that once rested on Benny's head may be worn by his 19-year-old double, Jackie Fields.

All Jackie needs to become champion is one match with Sammy Mandell with the title at stake. The Los Angeles youngster proved he was master of Mandell in their recent 12-round, no-decision bout here. Six of the eight sport critics present declared Fields the winner.

Fields is an exact ring for the greatest of all lightweight champs. He is of the same nationality, looks similar, thinks the same and fights the same.

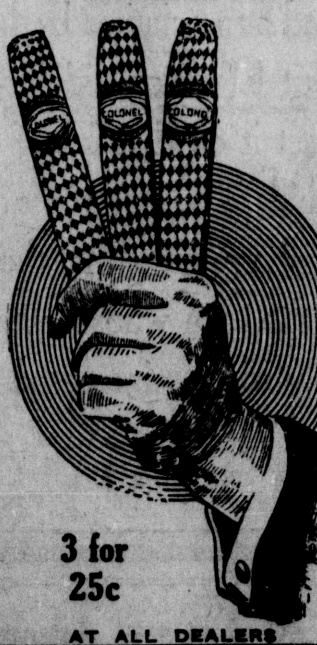

Jackie had the Rockford flash going and coming in their recent fight here. Whether they were fighting close in or standing off, Fields had the better of things. Between rounds, Eddie Kane said to Mandell, "Can't you keep away from those short jabs?"

"I don't know where they're coming from!" was the boxer's reply.

A Mandell-Fields bout with the championship at stake would pack Madison Square garden to the rafters. Unfortunately the Manhattan fans and Tex Rickard, such a match is out of the question. The New York law prohibits minors from fighting more than six rounds. Fidel La Barba could not go over the limit even after he became world's champion.

Dick Donald, the Tex Rickard of the west, put on the first Mandell-Fields fight. He is angling for the next one—and has a pretty good chance of getting it for an open-air shot.

PLANS FOR INDOOR BASEBALL SEASON THIS SUMMER TO BE DRAWN AT MEET TOMORROW

The fate of organized indoor baseball, for several years the most important summer athletic activity in Santa Ana, will be decided during the course of a mass meeting of enthusiasts in the council chamber of the city hall here tomorrow night at 7 o'clock. Every citizen interested in the future of the sport, has been urged to attend.

"Fathers" of the popular night recreation, who have watched the game handled in a sort of hand-to-mouth fashion from year to year, hope that ways and means will be adopted at this confab to make some provision for the future of the activity.

If they have their way, a permanent organization will be perfected to handle the sport from season to season with all profits accruing to the association.

In this manner, it is asserted, several thousand dollars may be obtained in the next few years so that the league, a co-operative or-

Continued on Page 16

BILLY EVANS

PSYCHOLOGY IN BASEBALL

In the opening game of the season, Ty Cobb, after failing to hit safely his first two times up, laid down a perfect bunt and beat it out easily.

The Yanks, opposing the Athletics, were of the opinion that Cobb had slowed up too much to dabble in the bunting business. The infield was playing him deep.

On the next play, a Texas leaguer over second, Cobb surprised everyone in the ball park by racing to third. The throw beat him slightly but he managed to avoid the touch by a remarkable slide and was safe.

The Yanks didn't believe there was enough speed left in Cobb's legs to take such a daring chance. Again he had pulled the unexpected.

In the very first game of his 22nd year in the majors Cobb had given the fans an exhibition of daring that would have been a credit to him when he was in his prime.

True, much of the old-time speed was missing but the keen mind, the willingness to take a chance and perfect execution marked both attempts of daring.

COBB EXPLAINS SUCCESS

Ty Cobb is a firm believer in the power of psychology in baseball. He attributes much of the marvelous success he has attained to its workings.

The day after the opener, bumping into Cobb as he came on the field, he remarked to me: "How did the old man look to you yesterday? Am I not in great shape? I'm pounds lighter than I have been in years for so early in the spring."

I agreed with Cobb that physically he certainly looked great and assured him that if he felt as well as he looked he would surprise a lot of the folks before the season was over.

Going back to the opening day game, I told him that I guess he surprised everybody in the ball park with his bunt, as well as his going from first to third on a short single. I asked him if it wasn't a little early to be pulling such strenuous stuff.

Cobb's reply made it apparent just how he works the power of psychology over the opposition in helping his general play.

WORRIES OPPOSITION
"There was a method in my

madness in pulling those two plays," said Cobb. "I did it almost entirely for the psychological effect on the opposition."

"Realizing every one, particularly opposing players, were much interested in my physical condition, I was anxious to make a good first impression. In other words, I was desirous of still creating a certain fear in the opposition over my presence in the game."

"I felt that if I could lay down a perfect bunt and beat it out, also take an extra base on a play that seemed rather foolhardy, it would make the boys feel that I still carried a threat at the bat and on the bases."

"When I was at the top of my game it was the fear the opposing clubs had for me, aside from the ability I possessed, that made me so dangerous. The opposition was always hurrying when I was on the bases while the pitchers worked too fine when I was at the bat and I benefitted greatly thereby."

"My opening day stunts were done in the name of psychology."

There you have some very substantial evidence why Ty Cobb is generally considered the greatest ball player of all time.

CRUICKSHANK'S SUCCESS KILLS LINKS THEORY

BY JIMMY POWERS
NEW YORK, April 25.—The "we Scot fra" the town o' Edinburgh" now looms as the big jack-and-jigger man to contest all 1927 golf championships.

Bobby Cruickshank is, as everyone who has ever played or mis-played golf knows, just a half-pint sort of a jolly old chap.

He has finished the winter golf season with a thick wad of greenbacks in his jeans, getting his biggest cendoff in the \$10,000 Los Angeles open. His sensational last round of 67, five strokes under par for the El Caballero course, earned him the shekels.

He is first with total earnings and first with total strokes, an average of 701-2.

Sarazen Figures Too
Gene Sarazen, another young man who is far from the bulky mold of Walter Hagen, Larry Nabholz, Leo Diegel, the lanky Jim Barnes and others, is, incidentally, the heavy dough winner in Florida.

Which brings us to this question: Is this the year for big little men?

Time was when the little shrimp was not rated a chance in the world. The contender had to have a howitzer driver, iron wrists and a chest like a barrel.

This winter the Tarzans were nothing if not debris, cluttering up the landscape when the prizes were passed around.

Shrimps Take Heart
Golfers not blessed with the build of Big Bill Edwards will now take heart, a hitch in their belt, a new maulie, and set forth on the fairway and greens shining ahead in the sun of 1927 to carve a little glory.

"Avoidpulis is just so much excess cargo in a lot of shots," the pygmy Scot has said in many a locker room after a victory over heftier rivals.

Bobby ought to know. Three years ago at Inwood he tied Bobby Jones in the open and flashed into the headlines. He was not ex-

LOCAL ANGLERS PREPARING FOR TROUT SEASON

With the opening of the 1927 trout season set for next Sunday, May 1, Santa Ana anglers are preparing for the most successful campaign in recent years.

Spring rains and heavy snowfall in the mountain sectors assure ample water in all streams and lakes, according to reports, and road crews are pushing the activity ahead to have highway links open at that time.

Reports from the high Sierras sound a word of caution that the higher reaches, around 9000 feet elevation, are almost inaccessible at present, but will afford splendid fishing later in the season.

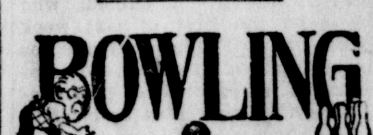

Big Bear lake, Mill creek, Santa Ana river, Arrowhead lake, Holcomb creek and other points in the San Bernardino mountains should be mecca for zealous disciples of Isaac Walton as all have been restocked during the past year with "fingerlings" that have developed into sizeable fish.

Hemet lake will offer good trout fishing as will streams in the San Jacinto mountain country.

The upper reaches of the San Gabriel river are closed at present but it is expected that they will be opened in the near future. Other points in the San Gabriel mountains include the Big Tujunga, San Antonio, Lytle, Cucamonga and Big Rock creeks.

Fistic Champions At Scribes' Meet

NEW YORK, April 25.—Gene Tunney, Sammy Mandell, Pete Latzo, and Johnny Dundee were among the former and present champions who joined 1000 other persons and Mayor Walker last night at the second annual dinner of the Boxing Writers' association.

Eddie West, sports editor of The Register, made a story for the sheet when he nosed out a field of 19 bowlers to capture first honors in Saturday's first annual Orange County Bowling Classics at the Bowlers' Inn here last night. West totaled 1148 pins for the six games across six alleys, an average of slightly more than 190 a game.

The going was so close through the entire tournament that any of six men had a fine chance for first money at the beginning of the final lap. George Mull pulled into an early lead but several wide open fights caused his ruin. Ray Heath looked a certain winner for a spell but splits also were fatal to him.

Heath finished second, 11 pins behind West. Mason Yould was third, sticks to the rear of Heath. Mill Varner and Henry Christian tied for fourth place. The scores:

West	1148	1st
Heath	1143	2nd
Yould	1132	3rd
Varner	1124	4th
Christian	1117	5th
Mull	1117	6th
Karam	1086	7th
O'Donnell	1086	8th
Gordon	1086	9th
Karam	1086	10th
Pohndorf	1086	11th
Walker	1086	12th
Karam	1086	13th
Sanford	1086	14th
Besser	1086	15th
Snee	1086	16th
Holland	1086	17th
Oleson	1086	18th
Klaustmeyer	1086	19th

Matches scheduled for local teams this week follow:

Business Men's League
Tuesday—Royal Cleaners vs. Certified Car Market. Wednesday—Rich Car Market vs. Complete Super service. Thursday—O. A. Haley Inc. vs. Jerome and McDonald. Friday—Kelly Roofing company vs. Robertson Electric company. Buick Autos vs. Register Scrivners.

Booster League
Monday—Joe's Motor market vs. Swift's Premiums. Tuesday—Spencer Collins Men's shop. Wednesday—Seldel market vs. Santa Ana Furniture company. Friday—Kaiser's service station vs. Bowlers' Inn Ladies.

Traveling League
Wednesday—Olds Six vs. Tivoli alleys at Santa Ana. Livesey's at Davenport alleys, Los Angeles.

STILLS CRITICS

MARK KOENIG

If the grandstand pilots had had their way last season Mark Koenig would now be in some Class D league instead of playing shortstop regularly for the New York Yankees. But Miller Huggins believed Koenig would make the grade. That his faith was justified can be seen in Koenig's play this season. The youngster has been hitting harder and fielding sensationally.

Fullerton Place Three
Fullerton, with three finalists, and Huntington Beach, with one, were the only Orange county teams aside from Santa Ana to make the finals.

Breeding proved one of the sensations of the qualifying tests. The tall Santa Ana's victory in his heat of the mile was not unexpected but the manner in which he disposed of his field was convincing as was his time, 4 minutes, 31 4-5 seconds, approximately five seconds faster than the record accredited to Don Hall, of Long Beach. Breeding's nemesis, who led by inches Al Storms, Hollywood captain, to the worsted in the second heat of the mile.

Four girls of Southern California junior colleges, among whom was Miss Thelma Patton, of Santa Ana, performed outstanding feats in the annual spring playday sport carnival held on the college athletic grounds here Saturday with 129 girls, representing eight junior colleges, participating.

Miss Patton took second in the baseball throw with a mark less than two feet short of that made by Miss Elizabeth Ramsey, of San Bernardino. Miss Ramsey hurled the baseball 200 feet and Miss Patton's distance was 198 feet, 5 inches.

Most of the individual honors of the athletic carnival went to the four star Amazons although many girls competed against them.

The day's program was opened in the morning with two hockey

Continued on Page 16

BREEDING WINS HEAT OF MILE RUN IN 4:31.8

Bear Outspeeds Wykoff in Semi-Finals; J. Moffatt, Jacques, Velarde Place

Santa Ana high school will be represented in the finals of the Southern California Intercollegiate track and field championships by five sturdy athletes next Saturday—Captain Harvey Bear, Harold Breeding, John Moffatt, Ernest Velarde and Robert Jacques.

These men qualified by placing in the various tests to which they were put in the preliminaries for the annual prep classic that were held at the Los Angeles Coliseum Saturday. Only one of the six Polyites who were eligible to participate in the preliminaries, Manley Moffatt, was eliminated.

Bear was unexpectedly shutout in the semi-finals of the 100 yard dash but will be eligible to run in the 220 next Saturday and he is conceded a good chance of winning this, his favorite event, off his fine showing in the trials. Bear won his initial furions heat and then came back in the semi-finals to decisively thrash the sprinting pride of Glendale, Frank Wykoff, whose tie with Bear at the Coast Preparatory league meet still rangles loyal Polyites.

Bear will run the 220. Breeding the mile and J. Moffatt, the 120 yard high hurdles. Moffatt also will compete in the high jump with Jacques. Velarde will carry Santa Ana's colors into the broad jump.

Preliminary results tended to justify the opinion of the critics that Glendale would be returned a winner in the finals. The Dynamiters, led by Wykoff, Slocum and Falter, looked formidable enough to lead the field, although Huntington Park and Pasadena, who qualified eight men, will be dangerous. Glendale and Long Beach placed seven; Hollywood, Los Angeles Poly and San Diego got six; Los Angeles got five; Santa Ana, Manual Arts, Chaffey, Alhambra and El Centro qualified four.

Harvey Bear
Breeding won by six yards from Martinez, of Chino, who was a yard in front of Callahan, Manual Arts. The contest in the finals between Breeding, Hall, Storms, Martinez and Callahan is expected to be the most hair-raising chase of the day and Chesley Unruh's Southern California prep record of 4 minutes, 29.6 seconds undoubtedly will be fractured by the winner. Bear was first in his heat of the

Y. M. C. A. BOYS TO PARTICIPATE IN BIKE RACES

T. P. McKee, boys' secretary of the Santa Ana Y. M. C. A., announced today that additional bicycle races for Y. M. C. A. boys will be held at 9 a. m., next Saturday, on the high school track.

It has been the custom in the past to open these races to all boys of the community, but on this occasion, it was explained, the entries are to be limited to Y. M. C. A. members.

Boys 10, 11 and 12 years of age and older may enter the races and their entries must be made by 3:30 Friday afternoon. A large field of entries is expected.

For the younger boys, under 13 years old, there will be two races, the first for heavy bicycles, one-fourth mile, and the second for light, racing machines, one-half mile. Boys 13 and over will have a half-mile race with the heavy ordinaries and a one-mile race for racers.

Two "slow" races, one for heavy and one for light machines, will be open to all the boys, regardless of age.

The races are being promoted by McKee in co-operation with the Cycle Trades of America, through its Santa Ana representative, Henry Belser. Many attractive prizes are offered, ranging from gold, silver and bronze medals to a gold knife and chain, mud guards, horns, toe clips, etc.

ROLLER SKATING ON STREETS IS BANNED

Roller skating and scuffling on downtown streets by children were today placed on the taboo list by Claude Rogers, city marshal.

Numerous complaints of children roller skating downtown, bumping into pedestrians and themselves having narrow escapes from injury and the fact that newsboys block pedestrian traffic, is the cause for the latest order to be handed down to police officers, it was said.

Children on skates will be stopped by officers and forced to remove their skates, with a warning that a second offense will mean arrest, Rogers told his department.

The newsboys already have been warned that the street corners are not the proper places for wrestling matches and that they will be arrested if the bouts are continued.

Most of the complaints regarding the newsboys concern those who sell their papers at Fourth and Sycamore streets, Rogers said.

NOTICE TO PROPERTY OWNERS WEEDS

The City of Santa Ana will commence cutting weeds April 26th; if same have not been taken care of by the property owner, prior to the arrival of the city forces, the Street Department will cut the weeds without further notice.

Your attention is called to the fact that during previous years it has been necessary to reclaim some lots where the weeds have only been partially cut by the owners. In order to avoid this confusion if anyone is uncertain as to whether their lots are properly cleaned, please call Phone No. 1136 and a city inspector will be sent to inspect the lots.

C. L. JENKEN,
Superintendent of Streets.

PLUNGE CLASS OF OLDER BOYS IS ANNOUNCED

A new development in the Santa Ana Y. M. C. A. swimming program for the spring is the introduction of a special class for older boys and young men for the purpose of teaching beginners the rudiments of aquatic. It was stated today at the association office.

So many requests have been received within the last few days, as the weather has become warm, for instruction in swimming, that Physical Director R. R. Russick has announced that he will offer special work for beginners during the next few weeks on each Wednesday afternoon, from 4 o'clock to 4:30, and again on Wednesday night, from 7 o'clock to 7:30. If this arrangement does not provide for all who need it, he will add another period to the schedule, it was added.

This instruction will be given without cost to members of the Y. M. C. A. and will be calculated to give the best possible preparation for the vacation season and also to lay the foundation for further progress in the art of swimming. Russick will give particular attention to breathing, form and speed, as his pupils advance in their work.

The time available for this work is quite limited, so Russick advises all who are interested to be on hand next Wednesday.

PNEUMONIA KILLS BIRDS

WATERTOWN, S. C., April 25.—A sudden change of temperature and humidity was ascribed by scientists as the cause of the deaths of thousands of migratory birds that fell from the sky near here. Naturalists said the fowls contracted bronchial trouble much like pneumonia. Many that stopped to rest in trees fell to the ground a few minutes later.

SAINT APPEARS AGAIN

MEXICO CITY, April 25.—Great crowds of pilgrims are flocking to the town of Ocapulco, where the Virgin of Guadalupe, Mexico's patron saint, is said to have made another miraculous appearance. This is the fourth time within recent months she is reported to have been seen. On the last occasion she is believed to have appeared on a hilltop, leaving her image upon a rock.

All Holland will be en fete on April 30 in celebration of the coming of age of the Princess Juliana, heir to the throne.

S. A. PHYSICIANS AT CONVENTION IN LOS ANGELES

Dr. Ruggles A. Cushman, Santa Ana, and Dr. Harry E. Zaiser, superintendent of the Orange county hospital, will represent the Orange County Medical association as official delegates at today's opening session of the fifty-sixth annual convention of the California Medical association, to be held at Hotel Biltmore during the next four days.

In addition to the official delegates, whose duties require them to keep in touch with the business proceedings, practically every practicing physician or surgeon in the county will attend one or more of the section sessions, listed under anesthesia; eye, ear, nose and throat; general medicine; general surgery; industrial medicine and surgery; neuropsychiatry; pathology and bacteriology; pediatrics; radiology and urology. It was explained by Dr. Dexter R. Ball, of this city, secretary of the county association.

Learned professors, distinguished physicians, and noted authorities of various phases of the profession, will address the medical men on subjects and problems associated with their professional activities.

The sessions opened today at 10 a. m. Speakers on the program were Dr. William Taylor McArthur of Los Angeles, president of the state association; Dr. William Duff, chairman of arrangements; Mayor George E. Cryer; Dr. Morton R. Gibbons and others.

Farmers Of Kansas Would Stop Dances

TOPEKA, Kas., April 25.—Embattled farmers of Sedgewick county, Kansas, surrounded by bleating saxophones and careening flappers, joyously performing terpsichorean feats at fast multiplying roadhouses and chicken dinner farms, may again get some sleep.

The house of representatives of the Kansas legislature rushed through a farm relief measure placing rural dance halls in the county under strict supervision.

Farmers, whose nocturnal slumbers were disturbed by gleeful necking parties, were responsible for one provision of the bill. It requires that a six-foot wire fence, with but one gate, must enclose the roadhouse grounds. If one leaves this enclosure, within which all cars must be parked, he will have to pay another admission to return. The grounds must be brightly lighted.

No girl under 18 years of age will be allowed in a dance hall after 8 o'clock at night unless accompanied by a husband over 18, or a parent or chaperon. No woman will be allowed to smoke in the hallways or anterooms and proprietors of establishments are made responsible for the conduct of the guests.

HOW ABOUT 'AGRARIAN'?

HARTFORD, Conn., April 25.—Pity the poor farmer—not because he may or may not need federal aid, but because the word "farmer" has been given an offensive and humiliating significance by custard pie comedians. At least, so says Willard Rogers, who has requested the aid of the New England council in substituting the word "agriculturist" for "farmer." The older term, he says, has given tillers of the soil an inferiority complex.

GARDEN CLUB WILL HEAR BULB EXPERT

C. R. Hannah, of the Highway Bulb gardens, near Anaheim, will speak at the meeting of the Santa Ana City Garden club to be held at the city council chambers Thursday, at 7:30 p. m. It was announced today by E. F. Whiting, president of the club.

Pointing out that this is to be a stated meeting of the club, which was recently formed, Whiting urged that members attend. At the same time he stated that all persons interested in growing beautiful home gardens will be welcome, regardless of membership.

The club has been organized for the purpose of assisting residents in beautifying their home grounds to the best advantage, and to instruct them in the science of gardening," the president said.

"It will be the policy of the officers to have competent speakers to talk at each meeting on some phase of gardening. A query department also will be maintained and this will offer members an opportunity to get expert advice on any phase of gardening."

According to Whiting, considerable interest is being shown in the club and the membership is increasing.

Increase Your Weight 5 Pounds in 30 Days Or Money Back

Doctors and good pharmacists know that Cod Liver Oil is full of vitamins that make flesh, create appetite, build up the power to resist disease and puts good solid flesh on skinny men and women.

But it's repulsive in taste and smell and nearly every stomach rebels against it.

So now men and women who keep up with the time are taking McCoy's Cod Liver Oil Compound Tablets—rich in flesh producing, health building, strength creating vitamins and as easy to take as candy.

Try them for 30 days if you want to fill out those scrawny hollows in chest, cheeks and neck and gain strength and vigor. And bear this in mind if they don't help you in that time any druggist anywhere will return your money. But demand McCoy's 60 tablets, 60 cents.—Adv.

FARM JUDGING MEET IS WON BY SANTA ROSA

DAVIS, Calif., April 25.—Santa Rosa high school won the California sweepstakes trophy for judging agricultural products at the annual picnic day at the University of California farm here Saturday.

Fifty-two high schools from all parts of the state competed in the various contests, with more than 500 girls and boys entered.

Santa Rosa's score was 274.7. Lodi placed second, with 264.6, making this score without a team in the dairy products contests.

Marysville was third, with 232; Hollister fourth, 205.7, followed by Modesto, 155.4; Gridley, 122; Fremont high school, Oakland, 95.7; Salinas, 94.8; Willits, 90, and Dos Palos, 86.4.

Winners in the various events included: Livestock judging—Lodi, 1928; Modesto, 1928; Marysville, 1806.

Ornamental plant identification—Bakersfield, 1458.5; Roseville, 1392; Salinas, 1223.5.

Poultry judging—Santa Rosa, 1029.5; Woodland, 998; Hollister, 990.5.

Fruit tree judging—Gridley, 736.8; Willits, 729.8; Fremont, 715.6.

Dairy products—Riverdale, 1546.45; Santa Rosa, 1526.25; Visalia, 1523.

Milk—Hollister, 527.6; Marysville, 525.4; Santa Maria, 525.05.

Cheese—Petaluma, 510.5; Riverdale, 510; Visalia, 507.1.

Wheat—Madera, 236; Lodi, 233; Modesto, 232.

Barley—Marysville, 248; Chico, 244; Manteca, 228.

Navy Flyer Sets New Speed Record

WASHINGTON, April 25.—A new world record for seaplanes, carrying a useful load, was made at Hampton Roads, Va., Saturday, by Lt. S. W. Callaway, U. S. N., who flew a navy Voight observation plane 147,263 miles an hour for 100 kilometers (about 66 2-3 miles). The previous record, made at St. Raphael, France, by Lieutenant Deming, a Frenchman, was 126,809 miles an hour for 100 kilometers.

TRAFFIC COPS WIN IN RANGE CONTEST

Orange county state traffic officers proved the better pistol shots in a meet staged Saturday with the Anaheim police force. The Anaheim team has been known for its prowess on the range for several years. The motor cops team is a comparatively new one.

The final score was: Traffic officers, 1272; Anaheim, 1034.

F. G. Yoder, star of the traffic team, held high gun for the day, hitting the bullseye for a score of 283 out of a possible 300.

The scores were: Traffic officers—Stinson, 258; Bradford, 247; Barnhill, 218; Aldrich, 268; Yoder, 288.

Anaheim—Whalen, 216; Piffer, 224; Kelley, 216; Cheatum, 194; Barnett, 194.

NOTICE TO PROPERTY OWNERS

It will be necessary for residents on South Main street, from First street to Edinger street to set out all garbage and trash on the parkway of the cross street while construction work is under way.

C. L. JENKEN,
Superintendent of Streets.

Yes, I Painted It!

"So easy to do, too, when you use LUSTRELAC ENAMEL. I bought an unpainted breakfast set, painted it myself and decorated it with B-H transfers. Every one says it looks like a professional job." "Old furniture can be again brought into service by refinishing it with one or more of the attractive shades of Lustrelac Enamel."

The Physician — The Minister

—The Men Who Are the First to Greet You and the Last to See You

Most of us saw the light of day and were brought through many early trials and troubles by the faithfulness and skill of the family physician. And aside from our families, no two individuals have a more important part in the drama of life. The physician is usually the first and last - the first to greet us and the last to serve us. Do we attach proper significance to the responsibility of the physician? Perhaps - or perhaps not.

Regardless of individual opinion on this point, it is a fact that there is no profession—and no business—in which the entire period of preparation is gone through without remuneration and but few, if any, require even an approximate length of time. Circumstances and human nature combine in making it difficult for the young physician to establish a profitable practice for a considerable period after he is fully qualified to serve.

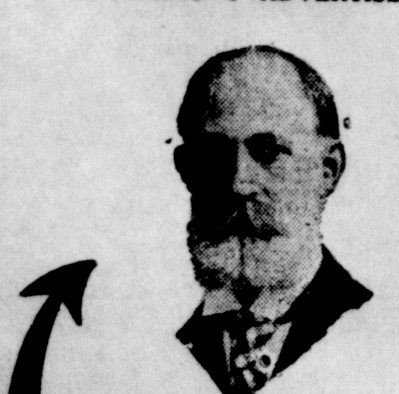

The physician, like the minister, serves humanity because of their desire to do something for their fellowmen. Do physicians rush to a plague stricken country for the same reason men follow a boom? You know differently. Neither do they answer your call at midnight or later for the two or three dollars fee. They do it because they are serving an ideal.

Show your interest and appreciation by being fair. You are not asked to do more, but let's stop side-tracking the bill we owe our doctors. Let's meet it on the first of the month just like we do the gas and light bills. Perhaps those would not be paid so promptly but for the knowledge that they would be "shut off," but be just as fair to the man whose overhead has trebled and who has, if at all, only slightly increased his fees.

THE ROMANCE OF AMERICA: Andrew Jackson

Sketches by Bessey
Synopsis By Braucher

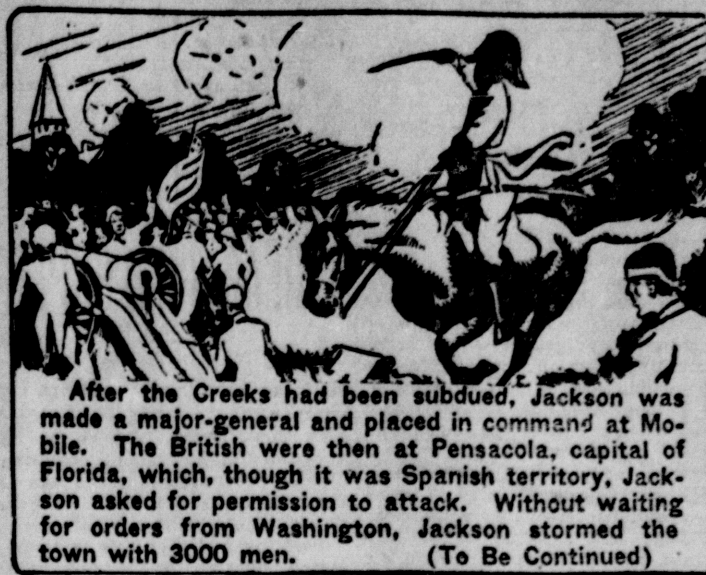

Once again in that war with the Creeks the soldiers tempted Jackson's bravery. Most of the men's terms had expired and they demanded they be allowed to go back home. Jackson trained the artillery on them and ordered them to their quarters. But daily his force dwindled as men deserted.

Finally, early in 1814, the long-awaited supplies arrived, with more soldiers. Jackson led his men at once into battle.

At Horseshoe Bend, on the Tallapoosa river, the Creeks made their last stand against Jackson's indomitable attack.

After the Creeks had been subdued, Jackson was made a major-general and placed in command at Mobile. The British were then at Pensacola, capital of Florida, which, though it was Spanish territory, Jackson asked for permission to attack. Without waiting for orders from Washington, Jackson stormed the town with 3000 men.

Covered Wagon Pioneer Quickly Restored to Health

Was So Weak Could Scarcely Use Arms or Legs. Sacramento Resident a Victim of "Flu," Loses Weight and Vitality. Finds Long-Sought Relief. Strength Restored. Praises Tanlac.

Pioneer blood flows in the veins of Frank Hubert, Box 1035, R. 14, Sacramento, Calif., a prominent stockman who trekked over the rough, hazardous trails from Illinois in the early sixties. But even his brawn, muscle and splendid health broke under the strain of modern living. "Flu" left its mark and threatened his life.

"I didn't care whether I lived or died, I felt so badly," said Mr. Hubert, "when I began taking Tanlac. My strength had vanished, sapped by the 'flu.' My arms and legs were so weak that they were almost useless. I couldn't even turn over in bed without help, so completely undermined was my strength and vitality."

"One night my wife saw the Tanlac advertisement in the paper and urged me to try it. I bought a bottle and started taking it, and I felt better right off. In a few weeks I was able to do all my work. Not only did my weakness disappear, but I actually gained twenty pounds, and I have felt fine ever since."

"Yes, sir, I firmly believe that Tanlac saved my life. Naturally, I'm so enthusiastic about Tanlac I am telling all my friends it's a great medicine and I'll praise it as long as I live."

Tanlac helps conquer ailments and builds up strength in finished bodies. It banishes pain and frees the system of poisons caused by constipation and sluggish liver. It is Nature's own remedy made from roots, barks and herbs, according to the famous Tanlac formula.

Begin taking Tanlac and enjoy the benefits of strength and good health. The first bottle usually brings results that will surprise you. Ask your druggist for Tanlac—today! Over 40 million bottles sold.—Adv.

THE TINYMITES

(READ THE STORY, THEN COLOR THE PICTURE)

They looked all through the books, and then, jumped up and started out again. "Oh, can I go along with you?" the scholar begged the bunch. And Scouty said, "Well, as a rule, we'd tell you yes, but, off to school you'd better go, or you'll get spanked. Now there's a happy bunch."

The lad said, "Well, I guess you're right. I wish I was a Tiny-mite. I'll bet you have a heap of fun just playing all day long. Some day when all my work is done, I too, am going to have some fun. But now I'll hurry off to school, so I'll not get in wrong."

The wee lad scampered over the hill and for a moment all was still. Then Scouty said, "Oh, look ahead! What's in that great big tree?" Almost as quickly as he spoke, the bunch all reached a great big oak, and when they looked up in the leaves, the whole bunch said, "Oh, gee."

A little baby swung with ease,

Just like the acorns on the trees. Said Copy, "Why, that's Rock-a-bye. And soon it's going to fall. I'll stand right here below the tree and all the rest of you join me. Then when the baby tumbles it will not be hurt at all."

Just then the wind began to blow. It rocked the baby to and fro. Wee Clowny said, "Now get all set to catch the little child. I think it has begun to slip, and soon will have a downward trip. Say, if the baby's mom knew this, 'twould surely make her wild."

And then the little tot fell down, but never landed on the ground. The band of Tines caught it and 'twas safe as it could be. The child woke up and said, "A-goo!" And thus the Tines knew that it would rather be with them than way up in the tree.

(The Tynmites find Mother Goose's home in the next story.) (Copyright, 1927, NEA Service, Inc.)

MISS TALLEY AND DISH-WASHING

By OLIVE ROBERTS BARTON

Marion Talley, the eighteen-year-old prima donna of the Metropolitan Grand Opera company, who started the world a year ago by her voice, has written an article about her life struggle for success, and, finally, her debut in New York.

It is full of sermons, her simply related story. It tells of a little girl's love of music, the modest way the family accepted the praise of great divas who heard her sing, their strict economy in order to give her lessons, the frugal manner of spending the sum raised by friends to educate her properly, and the present simple, almost austere, manner of living of her mother, her sister and herself in a New York apartment. They have lived there since the night of her great success.

She tells of their dislike of ostentation, their inborn habits of strict economy, and above all their love of work. Her father is still at work as telegraph operator in Kansas City. Economy seems to be the keynote of the entire story. As a little girl she was taught to do housework. Her music was not allowed to interfere with the regime of a well-managed home, and part of that regime was to teach its daughters housekeeping.

Now that she has reached the top of the ladder and become one of the world's greatest singers, she still helps to wipe the dishes, make beds, and do other things in the way of light housework.

That part of it is as pathetic as it is amusing. I think that the veriest crank on girl training will agree with me that Miss Talley's rather nice little apology for being so great is not necessary. And we do not wish her or expect her to wipe dishes—unless she prefers that pastime to other forms of indoor sports. It is enough that she can give the world something beautiful that it wants and needs. She has worked slavishly for years to make the best of her God-

Menus for the Family

BY SISTER MARY

BREAKFAST—Grapefruit juice, cereal, cream, baked eggs, crisp toast, milk, coffee.

LUNCHEON—Baked carrots, dandelion sandwiches, cottage pudding with maple sauce, milk, tea.

DINNER—Baked spaghetti and veal, spinach and egg salad, Parker house rolls, fudge cake, shredded fresh pineapple, milk, coffee.

The dinner meat dish uses a cheap cut of veal to advantage. Mushrooms can be added for flavor although they are not necessary.

Tender uncooked dandelion leaves are combined with cottage cheese, nuts and mayonnaise to make the sandwiches.

Baked Carrots

Four medium sized carrots, 1 dessertspoon sugar, 4 tablespoons butter, 2 tablespoons flour, 1-2 cup cream, 2 teaspoons lemon juice, yolks 2 eggs, 1-2 teaspoon salt, 1-8 teaspoon pepper, buttered crumbs.

Wash and scrape carrots and cut in half-inch dice. Put into a casserole with sugar and 1 tablespoon butter, and add boiling water to cover. Cover and bake about 30 minutes. Drain, reserving the liquor. Melt butter, stir in flour and slowly add 1 cup carrot liquor and cream. Cook, stirring constantly until thick and smooth. Stir in lemon juice and yolks of eggs well beaten. Season with salt and pepper and pour over carrots in casserole. Sprinkle with buttered crumbs and put into a moderately hot oven to make thoroughly hot and to brown crumbs. Serve from casserole.

(Copyright, 1927, NEA Service, Inc.)

given voice. Surely that is enough! And if the world wishes to pay her homage and make obeisance, she should give it that privilege. We need things to look up to and people to look up to. And we like to clothe them with all the glamour we can hang on them. It hurts no one I am sure.

BEAUTY CHATS

WAVED HAIR

Some of us have naturally waved hair. If we have we are lucky, for chiefly owing to the efforts and advertising of shops owning permanent hair waving machines, all straight haired women are being persuaded that true beauty lies only in wavy locks. It isn't true; curled hair is as often unbecoming as not, but for today we are only considering the woman whose hair, naturally or not, has a wave.

A wave has one advantage—its softness can lessen the face's fatigued look, which limp hair only accentuates. In this case, the hair should be brought fairly low on the forehead and quite far out over the cheeks, covering up the ears. Also, it can make a thin head or a long or a flat head look round. For this effect, have it cut quite short around the neck, shingled up the back, and then, whenever the hair is combed, the wavy hair at the top of the head can be fluffed out in the back, making the becoming round line.

Wavy hair sets off the serious type of face best when it is combed out of the way as much as possible. Comb it straight back from your forehead if you are this type, and parted away from the face at the sides if your face is not too thin. There will be enough wave around the face to look nice, but with a sleek effect too. Then the fluffiness, which will comb towards the ends of the hair, will look even more attractive.

Wavy hair is usually rather dry, therefore fluffs out around the face. Never cut such hair too short, choose a style of bob that shows some waves, and that lets the hair curl upward at the ends. This gives pliancy to the expression.

Smiles—When you are stouter your ankle bones will not protrude as they do now. Drink a quart of milk every day until you gain another ten pounds.

Tomorrow—Answered Letters

This wave is becoming

Constant Reader.—Using carbolic acid on the skin would be very dangerous as it might scar and cause a worse blemish than the liver spots.

Consult another skin specialist. Such stains, although coming from a simple cause, are very hard to remove; and the best method is some way in which nature may be induced to eliminate them. A very stimulating violet ray is better than a caustic bleach.

A GOLFER'S RESOLUTIONS

When starts the season, this I say: "A better game of golf I'll play And put my silly faults away."

"I will grow strong where I am weak. I will not lift my head to peek, Nor hear the caddy, should he speak."

"I will not press, nor lunge, nor sway, Nor blindly throw a match away, A better game of golf I'll play."

This vow I've made from year to year,

And yet when autumn draweth near, The same old weaknesses appear.

Despite my teacher's best advice That golf require's a stroke precise, I rush the shot and hook or slice.

I do know better, and I should Do better with the iron and wood, But still my game stays far from good.

And so with life, The right I know, I have been taught the way to go, But still I seem to blunder so!

Queer Quirks of NATURE

WHEN ELK ROAMED EASTERN FORESTS

By ARTHUR N. PACK

President, American Nature Ass'n.

This set of elk antlers is at least a century old. They may be ten centuries old or they may have adorned the head of a forest monarch even 2000 years ago.

Nor have they hung on the walls of a sportsman's den all the intervening years. Instead they have been buried away deep in the mud of a swamp, hidden from the men that cleared the neighboring forests and plowed the fields.

We commonly think of the elk as an animal of the western mountains. Few of us know that these splendid animals once ranged in great herds over much of what is now the northeastern part of this country, that they were abundant in the Allegheny mountains and on the plains of the middle west. Occasionally a set of antlers like these is found to tell the story of the days when the elk herds extended far beyond their present range.

This pair was dug from a small bog along the eastern shore of Lake Michigan, in a country from which it is known the last elk disappeared at least 100 years ago. How long they have been buried there, there is no way to guess.

Ancient Elk Antlers

appeared at least 100 years ago. How long they have been buried there, there is no way to guess.

JUST A JING

They used to talk across the fence, And have their morning say, But now that's over 'cause the wind Just blew that fence away.

(Continued from Page 13)

Baseball games with the girls divided into color squads were held next. All the co-eds were placed in one of the squads designated as blue, green, orange, purple, red and yellow groups. Captains were chosen and teams organized both for baseball and track. The purple team won the day's honors by acquiring a grand total of 426 points. Next in rank were the orange, 289, and the red, 311.

In the track meet, several exceptional marks were made. Miss Elizabeth Ramsey won the basketball throw with a toss of 88 feet. A height of 4 feet 8 inches was made by Miss Sarah Schwartz in the high jump. Miss Thayer Porter heaped a distance of 14 feet, 3 inches in the broad jump.

The swimming meet attracted much interest. Most of the honors fell to Miss Sarah Schwartz, former women's Pacific coast record holder for the 25-yard dash. She won that event in the swimming races but she was closely pressed by Miss Patton. Among the other aquatic honors that she took were the side-stroke and crawl for form and second place in the back-hand for form. Miss Schwartz also was a member of the winning relay team.

Pasadena Swimmers Win
Pasadena swimmers won, chiefly because of Miss Schwartz, with a total of 19 points to 16 for Santa Ana.

In the backstroke for form, Miss Elaine Smith, of Santa Ana, was first. Miss Enid Twist, of Santa Ana, was awarded second in the side-stroke for form and the crawl. Blanchard Beatty, Newport Beach expert, gave an exhibition of fancy diving.

The athletic carnival was conducted under the auspices of the Women's Athletic association, of which Miss Muriel Smith is president. According to visiting coaches and students, the program prepared here was the best that has been held since the playday arrangement was introduced among the Southern California junior colleges.

Lineup of the hockey game follows:

Santa Ana (1)	(2) Pasadena
Greenow.....RW.....	(3) Williams
Mueller.....RW.....	Watson
Evans.....RW.....	(4) Smith
Harold.....RW.....	Shaffer
Drake.....RW.....	Heider
Ross.....RW.....	Binkley

Team Scores 33
Runs, Doesn't Win

SAN FRANCISCO, April 25.—The Yellow-Checker cab ball team scored 33 runs in a ball game here with another team, but didn't win the game. Time was called in the fourth inning because of darkness, and four innings do not constitute a ball game, the rules say.

FIVE POLY ATHLETES
QUALIFY FOR FINALS

(Continued from Page 13)

100 yard dash, other victors being Rucker, Santa Monica; Wykoff, Glendale; Pearson, Belmont, and Slocum, Glendale. Wykoff was given credit for a new Southern California record, 9.4-5 seconds, as was Slocum, in winning his heat of the semi-finals.

Bear Gets Poor Start
Bear's time in the heat was 10.1-5 seconds. The Poly skipper got one of his terrible starts in the semi-finals and was so far behind when he left his holes that he never was able to get up although his fast finish put him close.

In the 220, however, Bear took his heat in 22.2-5 seconds and was clocked in 22 seconds flat when he won by nearly three yards from Wykoff in the semi-finals. In justice to Wykoff, however, it must be said that he slowed down in the last 25 yards when he saw he was placed and that he could not overtake the flying Santa Ana captain.

John Moffatt won all by himself in 16.1-5 seconds in his heat of the high sticks and got into the finals by taking third in the 15.3-5 seconds semi-final run that Starkey, Colton, captured.

Jacques and Moffatt cleared 5 feet, 8 inches to qualify with 11 others at 5 feet, 8 inches in the high jump. Volante was off form in the broad jump, leaping only 20 feet, 4 inches, but this was far enough to make him a finalist along with 11 others.

CRUICKSHANK KILLS
OLD GOLFING THEORY

(Continued from Page 13)

actly unknown before but had never figured seriously in championship calculations.

Then a fluke came on his trail. It stuck to him until this winter. First, it was Wild Bill Mehlhorn who perched up in a tree and gave a first-class imitation of an Alpine yodeler that caused Cruickshank to miss a three-inch putt and the Texas title on the final hole.

Lost To Merlhorn

Then he tied in the big pro tournament at Hot Springs and fate brought him face to face with Mehlhorn in the playoff. He lost by a slim margin.

Once again he tied with Johnny Farrell in the Florida open and lost by the slimmest margin of one stroke in the 18-hole playoff.

The tiny thistle is a member of the younger school. His title-winning days stretch out ahead. His play this winter rates him at the top of the favorites for the coming summer. And he certainly is the gallery god of the shrimps.

home indoor ball players may find themselves playing their games out in the street in the summer of 1928.

A number of public spirited citizens have offered to assist in financially underwriting the leagues but the powers-that-be prefer to discuss the matter at a public gathering before action of any kind is taken.

In 20 minutes, Dr. Raymond Pasot, of Paris, claims by means of plastic surgery to make a woman look at least 20 years younger.

The earliest woman's newspaper was "The Ladies' Mercury," published in England in 1633.

Crossword Puzzle

A DIAMOND PUZZLE
This diamond puzzle has no direct reference to baseball. But No. 18 horizontal and No. 16 vertical are things very important to ball players.

VERTICAL—
1. Beach. 2. Cards of the suit which secures the bid (bridge). 3. Old wagon track. 4. Part of verb to be. 5. Bone. 7. Every. 8. Chain of rocks at the water's edge. 9. Prophets. 10. Question which has prevailed from generation to generation. 11. Chest bones. 12. Declared. 13. Tinged with rose color.

HORIZONTAL—
1. Narrow strip of leather. 5. The males of the guinea pigs. 10. To drum on (as a table). 12. To slumber. 14. State of confused flight. 15. Inlet. 17. An oven for annealing glassware. 18. Upper human limb. 19. Flat-floor, edging boat. 21. Away used in opposition to "to." 22. Tending to deject. 23. Abbreviation for street. 25. A surface of a cube. 27. Blackbird. 29. Seventh note in scale. 31. Leanless. 34. Distinctive theory. 36. Pithless. 37. Secured. 38. True olive tree. 40. To devour. 41. Glen. 42. Approaches. 44. Married. 45. To scold. 46. Digs for coal.

ACREAGE NEAR YORBA LINDA IN OIL LEASES

YORBA LINDA, April 25.—Following the Standard Oil company into the territory east of Yorba Linda, other firms are reported as having secured leases on several ranches.

The Shell company is reported to have secured the Albertson and Reese ranch, at Mountain View and Grand View avenues, and the California Petroleum corporation to have leased the H. O. Banhart ranch, across the street to the south.

On Buna Vista street just east of the Pacific Electric tracks the D. F. Cook ranch has been leased to E. L. Cragin, oil operator who drilled the Soderberg well south of town.

Lease men for the Standard are still busy on the leases but due to refusal of some of the ranchers to sign options, the entire leasing program may be abandoned, it is reported. Several small places near the center of the proposed groups are being held out and unless secured by May 1, when the options expire, the Standard may abandon the entire plan.

At a special meeting of the Yorba Linda Water company the directors signed up with the Standard for the hill just east of Lakeland. This is the south end of Yorba Linda boulevard. This location is thought to be the spot around which the Standard lease center.

NOTED VIOLINIST TO PLAY IN ORANGE

ORANGE, April 35.—Three groups of violin and piano numbers will be played by Calmon Lubovski, concert violinist, and two of his artist pupils when they appear in the high school auditorium tomorrow at 2 p. m. in a memorial program for Percy Richards, former music instructor at the high school.

Lubovski, who is credited with being among the few great violinists of the present day, will be assisted by Georgia William, a violin pupil, and Frances Bates, piano accompanist.

Lutheran Social Hall Dedicated

ORANGE, April 25.—Impressive dedication exercises for the new \$65,000 memorial social hall of St. John's Lutheran church were carried out yesterday afternoon by the congregation of the church, headed by the pastor, the Rev. A. C. Bode, two visiting pastors, the donors, and a throng of Lutheran church members from surrounding communities.

The bidding, containing an auditorium, banquet hall, gymnasium, clubrooms, athletic dressing rooms, kitchen, social meeting rooms and a balcony surrounding the basketball court, was made possible by a \$65,000 grant to St. John's Lutheran church by Mrs. Helen Walker King. The structure was dedicated to the memory of Charles K. Walker, Oklahoma oil king, who resided in Orange several years previous to his death in 1925.

L. A. Youth Pays \$25 Speed Fine

HUNTINGTON BEACH, April 25.—Granner Swanson, 16, of Los Angeles, paid a \$25 fine to City Recorder C. W. Warner here yesterday after pleading guilty to a charge of reckless driving.

Swanson was arrested recently by Motorcycle Officer V. F. Mohn. According to reports, Swanson and a companion, riding a motorcycle, rode across the intersections of Main street and Ocean avenue at approximately 40 miles an hour. The machine reached a speed of 60 miles an hour after it left the business district, according to Mohn.

C. C. Collins Company

EVENING SALUTATION

How happy is he born and taught
That serveth not another's will;
Whose armour is his simple thought,
And simple truth his utmost skill.
—Sir Henry Wotton.

GIVE FREELY TO RED CROSS

The Red Cross has been designated officially by the government as the agent for handling the tremendous task of carrying relief to the flooded areas along the Mississippi. It is estimated that \$5,000,000 will be needed. Expenditures, of course, already have begun. Without waiting for the money to be raised, the Red Cross organization spread itself out over the flooded country, providing food, shelter and care for refugees. There was no reason to wait for funds—the Red Cross knows full well that in cases of disaster, the American people will rise to the aid of those who suffer.

Santa Ana chapter, which includes branches in nearly all of the communities of the southern half of Orange county, has been given a quota of \$1100 to raise. There should be no difficulty in securing much more than that amount. Surely, we, with our prosperity, and, what is greater, our security, can spare our dollars to meet this great need. Eleven hundred dollars from the southern half of the county is hardly 20 cents per person.

The subscription list now is open. Local Red Cross officials are anxious that the money be raised promptly. It is urged that checks be written "right now" and turned in at the Register office for the Red Cross.

Every dollar that is raised will go directly to the flood sufferers' fund.

A FEMININE MAJORITY

Woman suffrage in England so far has not meant equal political rights. Women have not been allowed to vote until they were 30 years old. Now the British government proposes to change that to the American system. If the next Parliament approves a bill submitted by the cabinet, as it is expected to do, the voting age for women will be reduced to 21 years.

This will make a big difference in the situation. It will enfranchise 5,000,000 women. It will mean far more to add that many young women to the voting lists than if they were women of all ages. Here are millions of women who have come to their majority since the war, whose thinking has been colored by the war and its aftermath, who represent the spirit of a new generation which makes a pretty clean break with the old. They should make their influence felt in British politics more than women have done so far.

There will be a feminine majority, too, hereafter, for there are 2,000,000 more women than men in Great Britain. Fears of "petticoat government," however, are groundless. It will probably continue true in England, as in other countries possessing equal suffrage, that women will not vote so extensively as men, thus leaving the men a practical majority.

COURTROOM LOUDSPEAKERS

At the trial of Henry Judd Gray and Ruth Snyder, charged jointly with murdering the woman's husband, loudspeakers are installed in the Long Island City courtroom "to counteract faulty acoustics."

The acoustics are pretty bad in a good many courtrooms, thanks to the architectural tradition that such a room must have a high ceiling and an echo. The original idea of that may have been to provide an atmosphere of dignity or to give proper resonance to the voices of the lawyers. An old-fashioned lawyer, in an impassioned plea, does love to hear his voice rolling back to him from the walls and ceiling. Loudspeakers may direct the sound where it will do the most good.

Everybody, we may assume, present at that sensational murder trial, will get an earful. But we may doubt whether loudspeakers are as dignified as old-fashioned atmosphere.

We're going pretty far nowadays in making dramas of our murder trials.

THE UNGRATEFUL BEAVERS

It's rather tough to be bitten by the hand that you are feeding.

State park officials in New York some time ago stocked the great Adirondack park with beavers. These animals, extinct in New York state for many years, have now multiplied to numbers estimated at 30,000.

This is all lovely—except that the beavers aren't showing proper gratitude. They are, it is reported, killing timber and spoiling fishing by their dams and ponds. Soon, it is said, they will actually be nuisances.

There's a tough problem for a poor park commissioner! Shall he protect the beaver and incur the wrath of park enthusiasts, or protect the park and have the wild-animal-lovers down on his head?

Solution of his puzzle will require plenty of thought and tact.

Propaganda has started now for another inter-oceanic canal, and it looks as if the earth will soon have more canals than Mars.

FOOD OUT OF SEASON

The northern states have been getting fresh vegetables and oranges from Florida and Southern California for months. They are now getting sweet corn from Texas, grapes from Argentina and peaches from Chile. All winter they have had fresh spinach and lettuce from their own hothouses, and now they have ripe tomatoes from the same source, and from Mexico.

People used to have fresh fruits and vegetables only "in season." Now communities with good transportation facilities and up-to-date greenhouses can have them in season and out of season. Soon there will be practically one season for everything—that will be all the year round.

Man is omnivorous, or more nearly so than any of the other animals. His diet is more varied today than ever before, and the variety is always available.

This is doubtless one of the main reasons for the improved health of the American people and the greater size and vigor shown by new generations of children.

WHAT'S ALL THE HURRY?

Are you in a hurry? Some day, when you're driving in heavy traffic, ask yourself why you and everyone else are going so fast. The average driver (the writer of this article included) frets and stewes when delayed for 20 seconds; he worms his way in and out, fumes when someone passes him, often risks his neck to save half a minute's time.

What's it all about? By driving leisurely, taking no chances and allowing any others who wish to speed by, one gets home not more than five minutes later than he does when he hurries. Are those extra five minutes worth all the trouble we drivers expend to save them?

Threats and Mistakes

San Bernardino Sun

It is just as foolish for a nation to make threats as for an individual. It leads to regretful action in order to "save the face." When one says what he is going to do if someone else does not do it, he is certain to lose his freedom of action and is often precipitated into needless and harmful acts. Likewise a nation which makes a demand on another and says refusal will have "grave consequences" puts itself in a bad position. Wars have started for no other reason than that such threats have been made and the threatening nation has been too proud to hold its hand.

It is reported that President Coolidge's cabinet has a wide divergence of opinion along this line, from the consistently belligerent attitude shown by Secretary Kellogg in all our foreign relations, to a very specific one taken by Secretary Hoover. The latter sees that the acts which inspired our protest were not those of a responsible government, but of a people raised to a high pitch of hostile feeling against all foreigners. Some of these people wore uniforms and doubtless some of the officers were with the soldiers and doubtless also some of those of higher command sympathized with them. There is not a sufficient state of discipline in the army to enable its chief commander to control the troops as American and European armies are handled.

We should be "too proud" to jump into such a situation and begin making reprisals in a spirit of revenge. We owe to civilization a different attitude than that towards a people in a ferment of reconstruction. If it were in our power in China, as it is in Nicaragua, to exercise a pacifying and up-building influence it would be different, but apparently the more we undertake to do by force in China the worse we shall make the situation, the more inflamed the people will become against us and all foreigners and the longer it will take to establish responsible government and recreate conditions of security for aliens and commerce. It was foolish to make a threat.

Philippine Referendum

Chicago Daily News

President Coolidge's veto of the bill for a referendum in the Philippines on the question of immediate independence for the archipelago was expected and warranted. Although the bill was passed by the insular legislature over the protest of Governor General Wood, few well-informed persons believed that it voiced a well-considered popular demand. It was a political measure purely, and many legislators who voted for it did so knowing that it would prove a futile gesture.

As Mr. Coolidge says in his message in explanation of the veto, the result of a plebiscite on independence at this time would be wholly unconvincing, since hosts of the natives are unprepared to register careful opinions on the subject. Moreover, no competent student of the situation in the islands favors their immediate independence. Even the native leaders know that to be impossible.

The revenues of the islands are insufficient to maintain a separate government or a defense establishment. The need of the natives for free trade with the United States is urgent, and their independence would automatically end free trade. Not many of the natives understand that aspect of the question.

What the more enlightened Filipinos really seek is substantial autonomy, a status similar to that of the Dominion of Canada in the British empire being their avowed aim. Unquestionably autonomy of that kind is coming, but coming gradually. It involves many complex problems, and no crude referendum can solve them.

Health Topics

By DR. MORRIS FISHBEIN
Editor of Journal of American Medical Association

MILK IS SPLENDID FOOD—BUT NOT PERFECT About one-fifth of the food budget of the average American family is used for milk and milk products. Campaigns to increase milk consumption have had their effect. They have been warranted, because children are better nourished if an abundance of good milk is included in their daily diet. Milk has been called the perfect food because it contains most of the essential elements to normal growth.

However, even milk is not an absolutely perfect food, and must be supplemented with other materials because there is a deficiency in some of the vitamins. It is so completely digested that it is efficient, but it does not provide bulk, which is necessary to allow proper action of the intestinal tract.

As has been pointed out in previous articles in this series, a proper diet contains proteins, carbohydrates, fats, mineral salts, and the various vitamins. Milk is well supplied with protein, indeed so well that there is no other animal protein of known value that is procurable so cheaply as the proteins of milk.

As a source of fuel for the body it compares favorably with other foods, since it has been estimated that the energy value of a quart of milk is about equivalent to that of a pound of lean meat or of eight eggs. It is one of the best foods for supplying calcium, a substance necessary for the growth of the bones. One quart of milk will furnish as much calcium as ten large oranges, thirty-two eggs, or ten large lemons of grapes.

Milk is, however, low in iron content and that mineral is better supplied by the green leafy vegetables or egg yolk, also by liver and kidneys among the meats.

It was once thought that all milk contained plenty of the various vitamins, but it is now known that milk specimens vary, depending upon the way the cows are fed and the amount of sunshine that they receive.

Milk from pasture fed cows in the summer is rich in vitamin A, fair in vitamin B, good in vitamin C, and probably poor in vitamin D; milk from cows stall fed in the winter is not nearly so rich in vitamins A, B and C, and probably very poor in vitamin D, the rickets preventing vitamin. Milk also varies in vitamin content according to whether or not it has been pasteurized, boiled, dried, or otherwise treated to change its nature.

The American diet is largely made up of white bread, meat, potatoes and sugar. In order to make this diet adequate there should be more milk, more green vegetables and more fruit juices. These will supply vitamins and the mineral salts.

The Star Player of the Whole Neighborhood

Restoring the Forests

Riverside Press

From April 24 to 30 we are to have Forest week. During that time an effort will be made in many ways to arouse the interest of the people as a whole in the matter of preserving and restoring the abundant woods with which nature covered so wide an area of the United States, and which we have so recklessly destroyed. There is still a vast area of standing timber of lumber quality, but we are devastating it with almost a prodigious hand. We need but to cut it with more attention to preservation of the natural new growth and to restore what is cut by replanting the denuded ground with seeds of young trees.

At various times it has been thought that other materials used in construction would make the demand for lumber so small that this question of the disappearance of the forests would cease to be so acute, but such has not been the effect of their use. Steel and concrete, tile and brick have come into use during the past score of years in quantity scarcely dreamed of half a century ago, and yet lumber is in ever increasing demand. That is because we are building more and larger structures for business and industry and more homes than we then dreamed of.

It is easy to say that one who owns an area of forest may cut the trees as he may please, that he may so handle the cutting of the big ones as to destroy the little ones and may leave his land a devastated area requiring many years for its natural reforestation and a constant invitation for fires that would destroy all new growth. But that is not true. We have come to adopt the theory that there is no absolute private control of anything that is necessary for the use of the public. We have a right to regulate its handling for the public welfare. Present greed should not be permitted to assure future calamity. We need so to educate ourselves that we would realize the necessity for control of timber cutting and replanting of cutover forest lands. And we need especially to understand, that shortage of lumber is not the only nor the chief evil result of destruction of the forests, but that it leads to great and disastrous climatic changes. That especially makes it a matter of public concern and warrants whatever steps are necessary to prevent it.

Worth While Verse

THE LAKE ISLE OF INNISFREE

I will arise and go now, and go to Innisfree,
And a small cabin build there, of clay and wattles made;
Nine bean rows will I have there, a hive for the honey bee,
And live alone in the bee-loud glade.

And I shall have some peace there, for peace comes
dropping slow,
Dropping from the veils of the morning to where
the cricket sings;
There midnight's all a glimmer, and noon a purple glow,
And evening full of the linnet's wings.

I will arise and go now, for always, night and day,
I hear lake-water lapping with low sounds by the shore;
While I stand on the roadway, or on the pavements gray,
I hear it in the deep heart's core.

—William Butler Yeats.

Time To Smile

HOME SWEET HOME

There was once a certain teacher who believed that a deep and profound reverence for home was a thing that all her pupils should be made to feel.

"Who can give me a definition of home?" she asked the class one day.

There was a distinct silence. It could almost be felt.

"Surely," continued the teacher, "surely some of you must have an idea."

A small boy stood up.

"Home," he answered, "is the building which usually stands in front of the garage."—Answers, London.

A MATTER OF AGE

Old Lady—And you've sung before the Prince of Wales! Are you sure?

Street Vocalist—Yes, positive. Me and the missus is both twenty years older than I is royal 'ighness.—Answers, London.

HIS PREFERENCE

Don—My, but the flies are thick around here!
Juan—Ah, I see you like your flies thin!—Annapolis Log.

IN THAT SENSE

"Mrs. Scrapp is a well preserved woman."
"Well, she's been in a good many jars."—Boston Transcript.

Little Benny's Note-Book

Yesterday me and Sid Hunt had a farsee argement ending up by us being mad at each other and not speaking, and this afternoon I was sitting on my front steps and Sid was across the street sitting on his and talking to Puds Simkins, me thinking, He can talk to Puds if he wants but if he ever tries to talk to me he'll think he's talking to a he'll persin.

Meaning because I wouldnt talk back, and test then Puds Simkins came over and sat down on my steps, saying:

G, you and Sid are mad, ain't you?

I am, enways, I sed. Bleeve me I wouldnt speak to that guy if he went down on his knees and promised to be my slave, I sed.

G, he told me he wouldnt speak to you if you gave him a million dollars and half of everything you own, Puds sed, and I sed, O is that so, well wat of it, because I wouldnt speak myself to speak to him if he was the last persin on earth and I was the next to the last and I had to talk to myself for company.

Well holey smokes thats funny, because he told me he aint going to speak to you even after he gets grown up with long pants and everything, Puds sed, and I sed, I guess he aint, because I aint going to give him the chance, and wats more I dont intend to leave my children speak to his children or even associate with them.

Wich jest then some of the other fellows came around and got up a game of cops and robbers, and they needed me and Sid to make up sides even, so we had to make up and be friends agen so as not to spoil the game.

In the Long Ago

14 Years Ago Today
From the Register Files

April 25, 1913
R. J. Hamilton, county secretary of the Y. M. C. A.; Martin Warren, Ben Oertly and Malcolm Wadford, local delegates to the state convention, made their reports at a county committee meeting of the Y. M. C. A., held at the First Presbyterian church.

It was announced that work on the new plunge to be built at Third and Spurgeon streets by the Santa Ana Athletic club will be rushed to completion.

Members of the board of education announced that for the first time in a number of years a meeting of the alumni of the Santa Ana high school would be arranged for the month of June.

Former South Dakotans who have settled in Orange county held their annual picnic at Orange county park.

The Santa Ana board of education passed a resolution debaring all users of tobacco from participating in any school activities.

J. G. Berniske, local grower, said that, owing to March frosts, the year's apricot crop would fall short of last year's crop.

A large group of Santa Anans went to San Juan-by-the-Sea to hunt grunion.

The total production of oil in the Brea-Fullerton wells for the month of March was 701,377 barrels.

The McBurney bowling team defeated the Forgy team, 2498 to 2631, in a game played at the Alexandria Bowling alleys.

When Grant Sought Third Term

Kansas City Star

Grant was the only president who sought a third election. The issue raised by this ambition was a direct challenge to the tradition of ineligibility after a second election. Grant was elected in 1868 and re-elected in 1872. Rumors that he would again be a candidate started in 1875 and were highly displeasing to many Republicans as well as to nearly all Democrats.

Grant disavowed personal interest, saying: "Now for the third term. I do not want it any more than I wanted the first." He declared, however, the people were not restricted to two terms by the Constitution, and that the time might come when it would be unfortunate to make a change in the presidency, even at the end of eight years. He concluded by saying he "would not accept a third nomination unless it should come under such circumstances as to make it imperative duty—circumstances not likely to arise."

But Grant's third term boom was demolished soon after the meeting of congress in December, 1875. Representative William M. Springer offered a resolution in the house declaring against any departure from the practice of limiting the presidency of one person to eight years. The resolution was adopted without debate and by a vote of 234 to 18, with 38 not voting. Hayes, at the time of the Hayes-Tilden contest, announced that he would not be a candidate for a second term. This made an open field for 1880.

In the first session of congress following the inauguration of Hayes, Representative Springer introduced another resolution, following the president's recommendation, favoring a presidential term of six years, the president to be ineligible for immediate succession. There were many who believed it unwise to prolong a presidential service, whether by long elective terms or successive shorter terms, who nevertheless saw no risk in recalling a former president after an interval of retirement. The

Springer resolution was regarded as opening the way for Grant's re-nomination. The ex-president then was on his famous world tour, was receiving much adulation abroad, and was in popular favor at home. He permitted his friends to present his name in the convention, with the historic deadlock resulting. The Democrats raised the third term issue. Even some of Grant's friends were afraid of it. However, Grant led on the first ballot with 304 votes, with Blaine polling 284 and Sherman 93. On the second ballot, Garfield, Sherman's manager, received one vote. On the thirty-sixth ballot Garfield was nominated.

There is no close parallel between the effort to nominate Grant for a third term and the relation of President Coolidge toward a second nomination. Grant was twice elected and served two full terms. Coolidge has been elected only once, and at the end of his elective term he will have served only five years and seven months. Every other president who came into office through the death of his predecessor served more than half the current term.

Many proposals, all futile, have been made to limit the presidency. Efforts to make a permanent term limit eight years. A few have favored only one term of only four years. Others have proposed four or six years. Jefferson favored seven years. But in the great majority of proposals for a single term, with ineligibility afterward, the period has been six years. Unless elected to another term, Coolidge will serve less than this generally often suggested period and more than two years less than two elective terms. If re-elected, he would serve one year and seven months more than any other president has served. Does anyone who otherwise would favor the re-election of President Coolidge believe there would be a hazard in thus breaking the eight-year precedent? We do not think so.

We Call Them Ghost Towns

San Francisco Chronicle

Colorado's government has discovered in that state seven incorporated towns, once populous and famous, now reduced to only 227 inhabitants between them. One has only two persons on its census roll. The answer is, of course, that these are mining camps, once roaring at hills, now played out and with no other resource on which to carry on.

We call them ghost towns in California, where there are seven times seven of them, and more, in the hills where the Forty-niners delved. They range from considerable standing, though empty, blocks of brick or stone buildings where a few old-timers do away the hours in the pleasant air of the hills to those completely perished camps where nothing but the brush tell of the fever of life there seventy-two years ago.

Brief was the time of most of them. The placers were soon

washed. Then, unless deep mines were found there, or good farm land lay near by, or the situation made a permanent trading center for cattle or lumbermen, the hurdy-gurdies moved on, the stores closed and followed, the last despairing saloon gave up and the camp fell quiet to the possession of the blue jay and the pack rat.

The greatest range of the ghost towns lies along the Mother Lode. They make the most romantic part of California, the scenes of Bret Hart's tales and Mark Twain's yarns. Some day the round of them will be a great tourist pilgrimage—as it should be now. It is pleasant in those hills; there is a never-ending varied charm from gulch to flat to river canyon, and over it all is the halo of the romance of Forty-niner clinging still, even if modern matter-of-fact minds disbelieve that the ghosts of the miners haunt those old diggings and ruined camps.

Did You Ever Stop to Think

By Edson R. Walte, Secretary,
Shawnee, Okla., Board of
Commerce

OSCAR S. STAUFFER, PUBLISHER OF THE ARKANSAS CITY (KANSAS) TRAVELER, SAYS:

THAT a great many business men worry about how they can cut down expenses and save money. The way to save money in a business is to spend it judiciously.

Especially in the manufacturing business many men will use antiquated machinery and think they are saving money; they will pay their employees only enough "to

get by" thereby cheating both themselves and their employees. "SEED WHEAT" KEPT IN THE BIN NEVER BECOMES NEXT SUMMER'S HARVEST. THE WAY TO SAVE MONEY IS TO SPEND IT.

Today's Birthdays

Princess Mary, Viscountess Lascelles, only daughter of their British Majesties, born 30 years ago today.

Leland Harrison, the new United States minister to Sweden, born in New York City, 44 years ago today.

One Year Ago Today

Reza Kahn, a former trooper in the Persian cossacks, was crowned Shah of Persia.

Dogs Allowed!

By SHIRLEY RODMAN WILLIAMS.

MOST parents will agree that a child has a right to have pets. That they are educational; that they promote a sense of responsibility, that they provide an outlet for the craving for something to own and love, and yet this mother can't bear cats (and doesn't), this father thinks dogs a nuisance (so won't own one); this mother deems gold fish a bother (so doesn't have them), and another declares birds are messy (and won't permit one). Oh yes, they want the children to be happy, to have their pleasures and enjoy their rights, but—

ONE Saturday morning when Sophie was baking
She said, "Run along, take your pup out of here."
And out in the garden where Jo-Bill was raking
He growled, "Watch your step, take that pup out o' here!"
And on the veranda where mother was sewing
She wailed, "Oh those tracks, take your pup out of here."
So pup and I walked around going and going
And feeling most truly not wanted and deear.

At last in the Land O' Pretend was a playground
With a sign on the gate, "Bring Your Dogs Right In Here."
And inside the gate was a dandy low fountain
With cherry red pop running steady and clear.

Right near it a keeper gave each dog a winner
And said, "Bring him back if he'd like to have more."
While all 'round the edges were signs in a garden
"Come Chew Up These Carrots and Melons Galore!"

Far down was a house that was nothing but kitchens
And over each door in great letters of gold
It said, "Bring Your Dog Right In Here For Free Cookies
And Come In Yourself and Eat All You Can Hold!"
